Rose Hill, New York

MORE THAN \$100.00 VALUE FOR \$7.30

Here is a statement that sounds like an exaggeration, yet it is no exaggeration. One of our customers wrote us that this beautiful planting brought him several hundred dollars more for his home, and enabled him to sell it at this great advantage. This planting will add many times its cost to the value of your property.

We will send you the 13 shrubs required to plant the above as illustrated for \$7.30. The plants we send in this collection are 3 and 4 year old bushy plants, up to 3 feet high, and will give you an immediate effect the first season planted. Planting instructions showing how to arrange the plants to get the above effect are sent with every order. The collection plants a space from 22 to 28 feet long. Two rows.

THE KING OF ALL DEFENSIVE AND ORNAMENTAL HEDGES. Berberry Thunbergii (Japan Berberry)—Very attractive in Spring with its abundance of yellow flowers. Leaves color brightly in the Fall. It has beautiful scarlet berries throughout the Winter. Will stand shearing to any size or shape. Plant 12 to 15 inches apart for a good, low, dense hedge. We will send you 100 plants that will make an immediate hedge 1-1½ feet high for \$15.00; 10 for \$2.00. Smaller plants, 6-12 inches, 20c each; 10 for \$1.50; 100 for \$12.00. We have an extra grade of fine bushy plants, 2 feet, 35c each; 10 for \$3.00; 100 for \$20.00.

HERE IS ANOTHER BEAUTIFUL HEDGE PLANT. California Privet—While not so hardy as the Berberry it will grow higher and can be trimmed to any shape or height. A vigorous grower with thick, glossy foliage of rich green which hangs on the plants in mild localities until Christmas and will keep green all Winter where well sheltered. Plant a foot apart for a good dense hedge. We supply strong plants 2 to 3 feet high to form an immediate hedge for \$9.00 per 100; 25 for \$2.50; 10 for \$1.50. Smaller plants, 18-24 inch, \$7.00 per 100; 50 for \$4.00. 12-18 inch plants, \$6.00 per 100.

We Give Highest Quality at Lowest Cost

Here are a few good reasons why we can give you satisfaction and why you should send your orders to us. Read the Following.

400 Acres of the Finest Quality of Nursery Stock enables us to select you the best possible quality in trees, shrubs, roses and other plants.

An Unbroken Record of 46 Years propagating, growing and shipping into every State of the Union is what our Mr. Brow's experience consists of and with a practical staff of nurserymen under his personal supervision you are assured of getting satisfaction in plants, packing and service.

A Guarantee that All Plants will Reach You in Good Condition and prove satisfactory to you in every way, otherwise we will replace immediately all plants that prove unsatisfactory when unpacked if complaint is made at that time.

You Save at Least Forty Per Cent Purchasing Direct from Us as we have no agents' commissions to pay. We sell only direct from the nursery to purchaser through this catalog. Here is another advantage in purchasing direct from the grower.

Read What the U. S. Department of Agriculture says in the Farmers Bulletin About Buying Plants. "If The Planter Makes His Purchase Direct From the Nurseryman he will Save the Expense of the Middleman or Agent and is Less Liable to Suffer from the Mistakes and Injuries that will come through Repeated Handling."

F. W. BROW. (F. R. H. S.) was awarded the highest honor bearing a first class certificate in 1900, by the Royal Horticultural Society of London, Incorporated by Royal Charter, for the best general knowledge in structural botany and horticultural practice. He is always at your service and will gladly give you the benefit of his 46 years experience if you write him about your plant problems.

Our Large Packing House Covers an Area of Over 2 Acres enabling us to grade, pack, label and ship our plants under the best conditions without exposing the plants to sun or wind, ensuring them reaching you in the best possible condition.

We Use the Greatest Possible Care to Keep Our Plants True to Name. Should any plants prove otherwise we will gladly replace on proper proof being sent us, but we cannot be held liable for more than purchase price of the plants. The fact that most of our customers purchase from us from year to year would indicate that everything has been satisfactory to them and that we can satisfy you also.

We Must Please Our Customers. The nature of our business demands that we give satisfaction. Having no agents and being dependent on our catalog for every sale we make, it is essential that every order we send out should give our customers every satisfaction and give them the full value for his or her money. This policy eliminates the expense of much correspondence and costly replacements, so that it is to our advantage to have every order go out to satisfy. Use the Mails to Send Your Order; Do not Pay an Agent to do what You Can Do by Mail for 2 cents.

Send Your Order Early and we will acknowledge it the same day as received, reserving your plants and making shipments to you at the proper time for planting, or we will make shipment any time specified by you. A book of instructions on the care of plants will be sent to all purchasers of nursery stock.

TERMS—Cash with order before shipment. Our prices are figured on a cash basis. Concerns allowing credit have to charge higher prices to take care of losses and the extra office expense which is sure to result. We do not pay shipping charges except on items specified.

HOW TO SEND YOUR ORDER—Make out your order on order sheet at the back of this catalog (or use any ordinary writing paper) and be sure to write your name and address plainly and correctly, giving express office, county and state then give quantity of each variety wanted with catalog price and enclose total amount.

YOU CAN SAFELY SEND YOUR MONEY TO US. We refer you to the First National Bank of Marcellus, N. Y., as to our reliability. Remittances may be sent by Postoffice or Express Money Order, Bank Draft, Personal Check or Registered Letter. Postage stamps will be accepted for amounts less than \$1.00. Do Not Send Money Loose unless by Registered Mail. We cannot be held responsible for cash sent loose in letters.

Our nurseries are inspected by the New York State Inspectors and a Certificate will be attached to each shipment, certifying that our trees are entirely free from all disease. Nurseries at Geneva, N. Y.; Oak Corners, N. Y., and Phelps, N. Y. Office at Rose Hill, N. Y.

ORDER SHEET FOR YOUR CONVENIENCE WILL BE FOUND AT BACK OF CATALOG

The Apple, the King of Fruits

The Apple is universally recognized as the most desirable fruit of the United States, because of its great variety of delicious flavors, nutritious qualities and nutritive value. Whether a commercial crop or for the satisfaction of the family, a well selected orchard of a few varieties is the most desirable investment that any land owner can place on his premises. Our trees are two years old. The same trees that the Agents ask more than double our prices for.

Delicious Apple

We have over a hundred and twenty thousand Apple Trees and can send you some very fine trees and make low prices on large quantities.

SUMMER VARIETIES

EARLY HARVEST—Medium to large; pale yellow; fine flavor. Tree moderate; erect grower and a good bearer. A beautiful and excellent variety for dessert and kitchen.

RED ASTRACHAN—Large, roundish; nearly covered with deep crimson; over-spread with a thick bloom; juicy, rich; acid. Cooking and eating variety, good for market; good bearer; Aug.

YELLOW TRANSPARENT—Good size; clear white turning to pale yellow; flavor sub-acid; is highly prized for cooking and eating; a popular market variety. Tree of Russian origin; upright; bears early, abundantly; hardy. July, August.

Fameuse

FALL VARIETIES

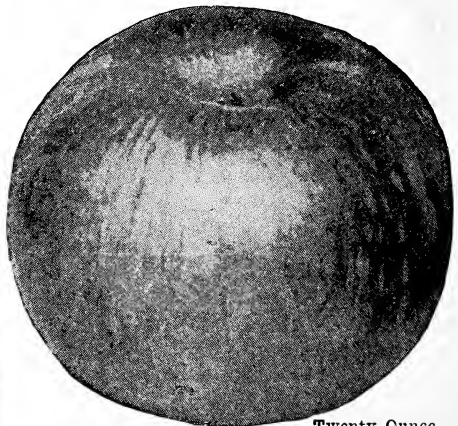

DUCHESS OF OLDENBURG—Large size, roundish; streaked with red and yellow; flesh whitish; juicy flavor, sprightly, sub-acid; market variety. Tree a vigorous grower; very hardy; succeeds in northwest where many kinds fail. August-September-October.

FALL PIPPIN—Very large, roundish oblong, yellow; flesh tender and delicious. One of the most valuable varieties for table or market. Tree a free grower and a fine bearer. October-December.

FAMEUSE (Snow Apple)—Medium size; pale greenish-yellow, mixed with stripes of red and splashes of red on shady side; flesh white, tender and juicy, slightly perfumed, sub-acid; extra good recommended for table, kitchen and market. An old and well known variety. Tree a moderate grower but productive. October-November.

GRAVENSTEIN—Large, rather flat; yellow with red stripes; beautiful and showy; flesh firm, tender and crisp, highly flavored; cooking and market. Recommended as a good fall variety.

TWENTY OUNCE (Cayuga Red Streaked)—Very large, striped very showy; flesh fair quality, pleasant; sub-acid; excellent for baking; popular market kind. Tree good grower and fine bearer. October-January.

Twenty Ounce

WEALTHY—Medium size; roundish, smooth, nearly covered with dark red; very good; dessert; very profitable as a market sort. Tree good grower and productive. Oct-Jan.

REASONS WHY YOU SHOULD PLANT OUR PURE-BRED TREES

Quality the best. Trees straight, smooth, well formed and true to name.

Prices, Low considering quality.

Trees will thrive and produce fine fruit in every section of the United States.

Trees are triple inspected—only the good trees go to you.

Trees have perfect root system due to whole root grafting and budding, much cultivation and proper digging.

Only standard varieties for home use and orchard planting grown.

Our trees are grown on land best suited to their needs. Right in the center of the lake region of the Empire state where hardy trees grow.

WINTER VARIETIES OF APPLES

BALDWIN—Medium size; conical; bright red; flesh is juicy, sub-acid; rich flavor; a great market variety of eastern states for cooking, dessert and market. Tree vigorous, open head. Abundant crops, but does not bear young. November-March.

BANANA—Of medium size, smooth; easily polished; deep yellow; slight blush; flesh is solid, juicy; mild sub-acid has delicate banana perfume and flavor; very popular for dessert and market.

DELICIOUS—Flourishes well in every state of the Union. Bears annually; a great yielder, hangs well on trees. Trees are very thrifty long lived and are extremely hardy. Fruit very large, nearly covered with brilliant, dark red; flesh, fine grain-ed, crisp, juicy, melting and delicious; splendid keeper and shipper; should be in every orchard.

FALLWATER (Tulpehocken)—Very large, handsome green, nearly covered with dull red; flesh juicy, crisp, sub-acid. Home use and local market. Tree a strong grower; very productive, even while young. November to March.

GRIMES GOLDEN—Medium size; regular; rich golden yellow; flesh firm, crisp, aromatic, rich, quality very best. Top-notch in market. Tree hardy and productive; bears early; blossoms late in spring; frost seldom catches them. One of the best sorts. November to March.

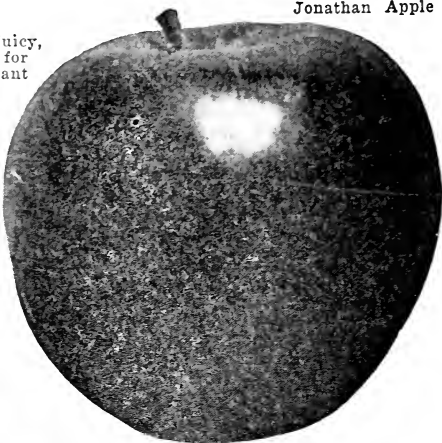

JONATHAN (New Spitzenberg)—Medium size; roundish; yellow, nearly covered with red; flesh white, fine grain-ed, juicy, tender and mild; a delicious and strictly desert apple that always demands highest market prices. Seedling of Spitzenberg. Is a much better tree; vigorous and productive. November to April.

MCINTOSH (McIntosh Red)—Medium large; polished smooth; yellow, nearly covered with brilliant crimson; beautiful; flesh snow white, crisp, very tender, aromatic, sub-acid; very good quality. Resembles Fameuse type, but is larger and more hardy. Tree vigorous with spreading head; a good annual bearer; popular in northwest. November to February. 5-7 ft., 75c; 4-5 ft., 65c; 3-4 ft., 55c; 2-3 ft., 50c.

NORTHERN SPY—Large; roundish; slightly conical; striped, with sunny side purplish-red; flesh white and tender, with mild, rich, spicy flavor. An old favorite and one of the best all-round apples grown. Tree is a strong, upright grower, head very compact and should be opened up by pruning to admit air and light. December-June.

RHODE ISLAND GREENING—Large; greenish yellow; tender; juicy, rather acid but highly flavored; very popular, extra good cooker. An old standard sort. Tree vigorous and spreading; a heavy and constant bearer. December-March.

Jonathan Apple

ROME BEAUTY—Large; round; mottled and striped in different shades of red; flesh yellowish, tender; juicy, sub-acid; recommended as a dessert and market variety. A good grower, blooms late, productive; especially recommended in the eastern states. November-February.

STAYMAN'S WINESAP—Medium size; roundish; greenish-yellow, red striped; flesh yellow, fine grain-ed, crisp, juicy, aromatic; recommended for cooking and eating. Tree quick and vigorous grower, adapts itself to different soils and situations. November-February.

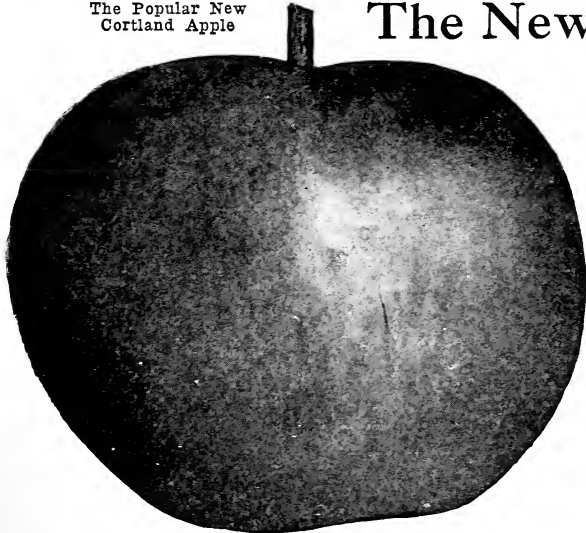

SPITZENBERG—The standard of excellence for apple of the Baldwin class. Large, rich, yellow covered with bright red.

TOMPKINS KING (King of Tompkins County)—Very large; attracts attention by size; red; flesh yellowish, crisp and tender, sub-acid, of best quality; always in demand on market. Tree is a vigorous grower, good bearer and hardy. November-January.

WOLF RIVER—Very large, handsome; red on greenish-yellow skin; flesh whitish, tinged with yellow, very firm, tender, juicy and of good quality; rather acid; market sort.

The Popular New
Cortland Apple

The New Cortland Apple

A new variety of the McIntosh type, originated at, and very highly recommended by the New York State Experimental Station. Tree large, vigorous grower, very productive, regular in bearing, of great hardiness. Fruit larger than McIntosh, more uniform in size, more highly colored, with heavy bloom; richer in flavor, firmer, but just as juicy. Season one to three weeks later, and the apples do not drop as readily. Cortland is truly an Improved McIntosh, and the beauty and high quality of the fruit cannot be surpassed by any Apple in the world.

Reduced Prices of The New Cortland—Strong, 2-yr. trees, 5 to 7 ft., 75c each; 4-5 ft., 65c each; 3-4 ft., 55c each; 2-3 ft., 50c each.

ANOTHER REASON FOR ASKING YOUR PATRONAGE. READ THIS TESTIMONIAL

Blackwood, July 14th. F. W. BROW: Dear Sir: Find enclosed order and check for more plants. I have been buying from you for 5 years and my Apples, Pears and Grape Vines are just loaded with fruit this year. The Dwarf trees were so heavily loaded that I had to pick some of the blossoms for fear they would bloom to death.

(Signed)

T. A. VERNON.

DO NOT MISS OUR GARDEN SEED COLLECTION OFFER ON INSIDE BACK COVER
A GARDEN FULL OF FLOWERS ALL SUMMER FOR 85c

Crab Apples Are Popular For Jellies

Crab Apples are especially desirable in the colder sections where only a few varieties of apples can be successfully grown; but they succeed well in all climates and their fruit is very popular for preserves and jelly. Some sorts are excellent for eating. 2-yr. old trees, 3 to 5 ft., 50c each; 4 to 6 ft., 60c each; 5 to 7 ft., 70c each.

MARTHA—Medium large, yellow with heavy blush of red; flesh fine grained, firm, juicy, sub-acid; recommended for market, dessert and cooking. Tree vigorous grower and very free from blight. September.

HYSGLOP—Large, round, conical; yellow, with heavy shadings of deep crimson and splashes of maroon with heavy blue bloom; flesh fine, firm, yellow, astringent; its high color always commands a fancy market price. September-October.

TRANSCENDENT—Medium large, oblate; golden yellow, with blush; flesh firm, crisp, yellowish, fine grained, very juicy and acid. Tree grows rapid and irregular. September.

WHITNEY—Large, averaging one and one-half to two inches; round, conical, smooth, glossy yellow, with red stripes; flesh firm, juicy and rich, almost sweet. August.

Read Some of the Testimonials Printed in this Catalog. They should convince you that we can serve you right.

DWARF APPLES AND DWARF PEARS

DWARF APPLE trees commence bearing fruit the second year after planting and as they do not attain as large size as standard trees, they are especially desirable for village or city gardens. The great advantage of these dwarf trees is that they bear fruit several years earlier, usually the first year after planting and produce more returns for a given space than standard trees. Heretofore city people have been obliged to buy all their apples because the size of their garden plot would not enable them to plant standard trees on account of the amount of space these standard trees required. There is no question as to the desirability of being able to go out into your own fruit garden and pick from trees of your own growing and eat it when in the freshest condition. These dwarf trees open up a new avenue to the people who have gardens of a limited size.

PRICES OF DWARF APPLES

2-year-old trees, ready to bear fruit, 75c each,
10 for \$7.00.

The varieties of Dwarf Apples we grow are; Duchess, Wealthy, Delicious, Red Astrachan, Yellow Transparent, Gravenstein, Baldwin, McIntosh.

F. W. Brow Nurseries Pennsylvania, April 6.
I am sending you herewith an order for more trees. These I got from you last Spring were the best I ever saw for the money.
C. G. TRUTT.

New American Mulberries

Transcendent Crab

THE DWARF PEAR tree, like the Dwarf Apple, bears fruit very early, does not grow so large a tree as the standard trees, consequently is valuable where space is a consideration. It is also valuable for commercial planting, being an ideal "filler" in orchards of standard pears or apples because of its early fruiting tendencies, and the little space required for its development. Although the tree is dwarf, the fruit is as large as that produced by standard trees.

PRICE OF DWARF PEARS

2 year old, ready to bear fruit, 75c each,
10 for \$7.00

The varieties we grow are Bartlett, Duchess d'Angouleme, Seckel, Buerre de Anjou, Clapp's Favorite.

APRICOT TREES

2-year old trees, medium size, 70c; large size, 80c.

ALEXANDER (Russian)—Medium to small size; light orange flecked with red; flesh tender; juicy, sweet and good flavor; dessert and market. Tree hardy and productive.

MOORPARK—Very large; orange yellow with numerous specks and dots; flesh yellow sweet, juicy and rich, very good market and dessert. Tree is rather tender and fruit ripens unevenly. August.

QUINCES

2-year-old trees, 70c each; large size, 80c.

CHAMPION—Very large, greenish yellow, flesh cooks as tender as an apple and without hard spots or core; flavor delicate imparting an exquisite quince taste and odor to any fruit with which it is cooked. Trees are vigorous growers and bear heavy crops of superior fruit; one of the best for sections not subject to early frosts.

MEECH'S PROLIFIC—Large size; bright yellow, very fragrant, good flavor; one of the best; bears early and very productive.

ORANGE—Large, bright, golden yellow; fine, firm flesh and good flavor; one of the best for cooking. The most popular and extensively cultivated of the old varieties. October.

MULBERRIES

Fine trees, 5 to 6 feet high, \$1.20 each; \$11.00 for 10.

NEW AMERICAN—Largest of all the Mulberries. It bears heavy crops at three years old. The fruit is jet black and excellent quality. Tree a rapid grower, handsome shade and form, making a very handsome shade tree for the park or lawn; they bear fruit continuously from May to August.

DON'T OVERLOOK OUR WONDERFUL ROSE BARGAIN ON FRONT COVER

The Pear, the Quality Fruit

The Pear is the most delicious of fruits on account of its fine, juicy texture, exquisite flavor and aroma. While some varieties do better if picked when partially ripe and finished indoors, yet the really enjoyable supply should come from the home orchard, planting a number of varieties that will ripen in succession, from fall to winter. Every garden and orchard should plant a few pear trees this spring. With the price of fruit constantly soaring, due to scarcity of new stock the one who plants now will have a good supply when this delicious fruit is almost unobtainable.

BARGAIN PRICES OF PEAR TREES

	Each	10	100
2-year-old trees, 2½-3 ft.	\$0.50	\$4.00	\$25.00
2-year-old trees, 4-5 ft.65	5.50	30.00
2-year-old trees, 5-6 ft.70	6.00	40.00
2-year old trees, 6-7 ft.75	7.00	50.00

We have over fifty thousand fine trees and can more than please you with quality.

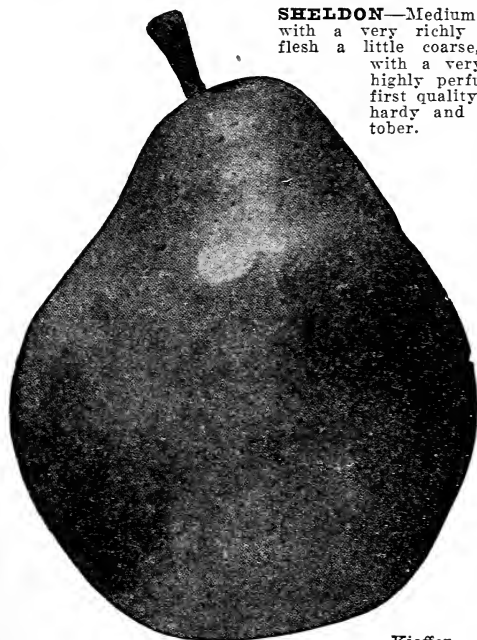

SUMMER VARIETY

BARTLETT—Large; rich yellow, with beautiful blush next to the sun; buttery, very juicy and highly flavored. Very popular; grown everywhere. A favorite market variety. Tree a strong grower; bears early and abundantly. Does best as a standard. Last of August and early September.

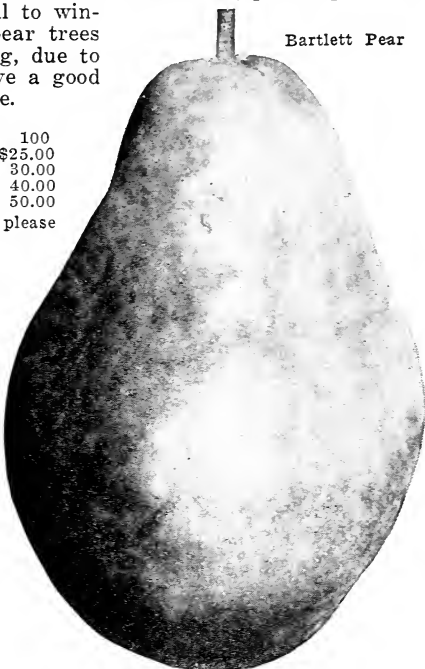

CLAPP'S FAVORITE (Fay)—Large; pale lemon yellow with red cheek; flesh of fine texture, melting buttery, juicy, with a rich vinous flavor; good for market and kitchen. Tree hardy and very productive, does well in all sections. Standard or dwarf. August.

SECKEL—Medium; yellow with crimson cheek, flesh is melting, sweet and aromatic; most exquisitely flavored pear known. Tree slow grower but hardy and healthy. September. This variety should be in every orchard, for there is a good market for the fruit and it brings a high price wherever offered for sale.

SHELDON—Medium size; yellow with a very richly shaded cheek; flesh a little coarse, melting juicy with a very brisk, vinous, highly perfumed flavor; of first quality. Tree vigorous, hardy and productive. October.

Kieffer

Bartlett Pear

AUTUMN VARIETIES

ANJOU (Buerre d'Anjou)—Large; greenish shaded with russet-crimson; flesh is highly flavored, vinous and rich; dessert and market sort; keeps well until winter holidays, when it commands a high price. Tree hardy and productive and succeeds well in all sections. October-January.

DUCHESS (Duchess d'Angouleme)—Very large green and yellow, with russet; flesh very juicy; rich excellent flavor. An all around variety for dessert, cooking and market.

FLEMISH (Flemish Beauty)—Large; pale yellow, covered with light russet, turning reddish brown when ripe; flesh juicy, very sweet, rich and melting; recommended for extreme northern states.

KIEFFER—Medium large; yellow and crimson, with russet and brown; flesh firm and good when ripe; the Ben Davis of the pear family; when properly ripened is delicious. Tree vigorous, with healthy, dark green foliage; an early bearer and very productive everywhere. October.

WINTER VARIETY

LAWRENCE—Medium; lemon yellow; flesh sweet, melting aromatic; recommended as one of the very best winter sorts. Tree hardy, healthy and productive. November-December.

Gentlemen: March 23rd, 1927.
Received shipment of trees and grape vines and wish to say that I was more than pleased with them. The plants are a credit to any nursery and worth much more than the money asked for them.
Geo. W. Boutillier, Rhode Island.

WHY WE CAN SELL TREES AT ONE-HALF AGENTS' PRICES

It is impossible for the agent to sell you trees or plants at our prices for he represents some retail house which buys from the grower, who must make a profit. The retail house he sells for must have a profit which is profit No. 2. Then the agent who has big traveling expenses must get a price high enough to cover his expenses, as well as his commission, which is profit No. 3. Consequently the same tree which we sell direct by catalog for 80c, the agent must necessarily sell for \$1.60 to \$2.00. Why pay agents these extra profits when you can send us your order with a 2 cent stamp.

Grow Our Choice Plums

The Plum, like a Pear, succeeds best in a rather heavy soil with some clay, and being generally free from disease is profitable. They should be gathered a few days ahead of use that they may develop their perfect flavor. For family use they especially do well in poultry yards, or where the hogs keep the ground free from fallen fruit. The varieties should be mixed.

PRICES OF PLUM TREES

	Each	Per 10	Per 100
2-year-old trees, 2-3 ft.....	\$0.40	\$3.00	\$20.00
2-year-old trees, 3-4 ft.....	.50	4.00	25.00
2-year-old trees, 4-5 ft.....	.60	5.00	30.00
2-year-old trees, 5-7 ft.....	.70	6.00	40.00

We have over 45,000 fine trees and can send you select trees at above prices.

ABUNDANCE (Japan)—Medium to large, a rich cherry red; with a decided white bloom; cling; flesh light yellow, exceedingly juicy, tender and delicious; kitchen and market. Tree vigorous and hardy; rapid grower and bears young. Last of July.

BURBANK (Japan)—Large, reddish purple, almost a cherry red; a cling, flesh yellow; juicy; fine for keeping and shipping; good for kitchen and market. Tree rather spreading and requires sharp pruning; an abundant bearer. Very hardy and prolific. Medium late.

BRADSHAW (Niagara, Amer.)—Medium large purplish-red; free; flesh green, juicy; a very fine plum of attractive color; good shipping qualities. Tree an upright grower, bears regularly; enormous crops. Medium early.

DAMSON (Europe)—Small; black with thick blue bloom; free; flesh juicy, but rather tart; best for kitchen and market. Tree enormously productive and hardy. September.

IMPERIAL GAGE (N. Y.)—Medium, yellowish green; heavy white bloom; free; flesh juicy, sweet rich and excellent; one of the very best dessert and market. Tree upright and vigorous. September.

ITALIAN PRUNE (Europe)—Medium large; purplish-black; blue bloom; free; flesh greenish-yellow, juicy, sweet and of good quality; will hang on tree after ripening; splendid for drying and market. Tree very productive. September.

LOMBARD (N. Y.)—Medium large; reddish-violet, with heavy bloom; cling; flesh firm, yellow and very pleasant for both the kitchen and market. Tree usually vigorous, succeeding well on even light soils. Late August.

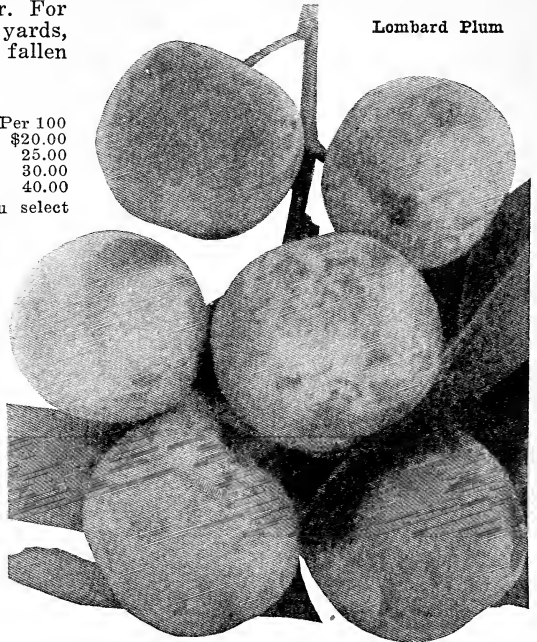

MONARCH (Eng.)—Large; reddish to blue-purple; thin bloom; free; flesh pale golden-green, juicy, pleasant, recommended for dessert, kitchen and market. Tree comes into bearing young and yields abundantly. August.

SHIPPER'S PRIDE—Large; nearly round; purple in color; flesh is firm, sweet and juicy; a beautiful and valuable variety, excellent for shipping and the kitchen. The tree is hardy and productive. September.

YELLOW EGG (Europe)—Very large greenish yellow; flesh clings to the stone, a little coarse but recommended for drying and cooking and always brings a good price. Tree a free grower and very productive. Late August. Fruit will stand long shipments.

YORK STATE PRUNE—Large size; blue; delicious; one of the largest, best in quality and most productive grower and hardy. August.

Lombard Plum

WICKSON (California)—Very large; reddish purple, with white bloom; cling; flesh firm and meaty; yellow, rich and aromatic; a market sort. The tree is strong and spreading; bears abundantly and early in most localities. August.

F. W. BROW: Dear Sir—Your Fruit Trees are the best I have ever seen. They arrived in May and inside of two weeks every tree, without exception, was fully leaved out. They seem very hardy.—Stanley N. Woodbury, New Hampshire, June 19th.

RHUBARB

A deep, rich soil is indispensable to secure large, heavy stalks. Plant in rows four feet apart, with the plants three feet distant. Set so that the crowns are about one inch below the surface. Top dress in the fall with stable manure and fork under in the spring.

Large whole roots, 20c each; \$12.00 per 100.

LINNEAUS—Leaf stalks large, tender, juicy, productive quite early. Good for culinary purposes.

QUEEN—The extra large, tender stalks are a decided pink color and delicious for canning or cooking. A strong grower.

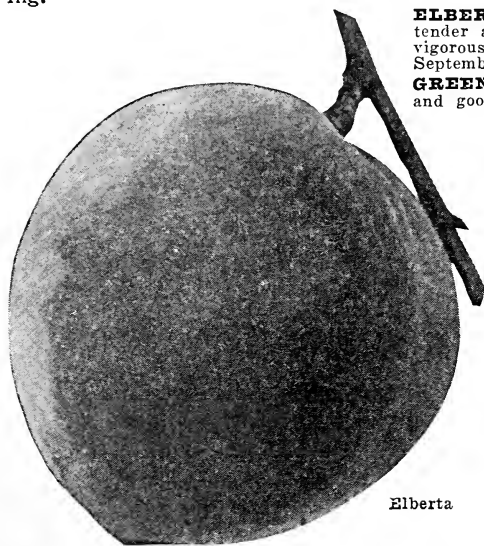

Linneaus Rhubarb

DO NOT MISS OUR GARDEN SEED OFFER ON INSIDE BACK COVER
A GARDEN FULL OF FLOWERS ALL SUMMER FOR 85c

Grow Delicious Peaches

Every home should have a few Peach trees as there is no more delicious fruit in its season, and that purchased on the market is often of an inferior quality because of the necessity of picking comparatively green. Peach trees grow quickly and produce fruit soon after planting.

Elberta

PRICES	Each	Per 10	Per 100
2 to 3-foot trees.....	\$0.30	\$2.50	\$20.00
3 to 4-foot trees.....	.40	3.50	25.00
4 to 5-foot trees.....	.50	4.50	30.00

We have over two hundred and fifty thousand trees and make special low prices to clean up.

BEERS SMOCK—Medium large; creamy white, with crimson blush; flesh yellow, tender and rich, very good quality for the season and recommended for market. Tree a rapid grower, prolific bearer and hardy. Late September-October.

BELLE OF GEORGIA—Medium large, oblate; white, with red cheek; flesh white, firm and excellent flavor; recommended for dessert, kitchen and market. Tree a rapid grower and very productive. Early July.

CARMAN—Large, round; white, with deep blush flesh tender and juicy with fine flavor; skin very tough, making it available for marketing with profit. Tree reported very hardy and a prolific bearer. August.

CHAMPION—Large, round quite regular; a creamy yellow, with red blush; flesh white with red stains around pit; flavor delicious, sweet and juicy. Tree very hardy and productive. First of September.

CRAWFORD'S LATE—Large; yellow or greenish-yellow; with dull red cheek; flesh yellow, strained red at pit, melting, vinous and very good. Tree is hardy and productive, usually needs thinning to make a good size fruit. Last of September.

CRAWFORD'S EARLY—Large; yellow, with red cheek; flesh yellow, juicy, sweet; its size and beauty make it very popular. Tree vigorous and productive, but buds are very tender. First of September.

F. W. Brow Nurseries: New York, April 26th
Gentlemen: A tree agent called as I was unpacking your plants which I ordered from you, and he admitted that your trees were above the ordinary quality, and he also said that he wanted to buy trees for himself from you as his company had sent him very unsatisfactory stock compared to yours, and he is surprised at the variance in price between his company and yours. I enclose his name as he wishes your catalog. Cordially yours.

—Paul W. Ellis.

ELBERTA—Very large; Golden yellow with bright red cheek tender and juicy; the great market peach of the country. Rank, vigorous grower, does well in all peach growing sections. Middle September.

GREENSBORO—Medium with beautiful blush; flesh white, juicy and good; freestone when fully ripe; said to be larger than Alexander. July.

HALE'S EARLY (Semi-Cling)—Medium size; greenish-white; red cheek; flesh white; melting juicy. Tree vigorous; healthy; an abundant bearer. July-August.

MAYFLOWER—Medium size; practically red all over; flesh firm and of good flavor; extremely valuable as a very early market sort; especially in the southern states. The tree blooms very late and is an upright and good grower; a prolific bearer. Is the earliest peach now known.

ROCHESTER—Is in a class by itself because it is the only good sized yellow freestone Peach of fine quality ready for market in the middle of August in the northern states. The fruit is large, yellow with a most attractive red blush; juicy and delicious and keeps well. Free.

STUMP—Very large; roundish; white, with a red cheek; considerable bloom; flesh white, juicy and has a good flavor. The tree is very prolific and bears large crops of fruit. Last of September.

F. W. Brow Nurseries
Rose Hill, N. Y.

Connecticut
April 29th, 1928

Dear Sirs: I am pleased to acknowledge receipt of your shipment of trees which came on April 23rd. The trees and all the shrubs were of good quality and in excellent condition.

Signed, I. T. Hook, Consulting Engineer.

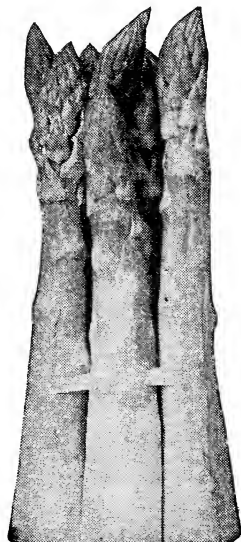

ASPARAGUS

With a small plot of ground the home gardener can raise enough Asparagus to supply the table during the entire season.

Two-year Selected Roots, 25 for \$1.00; 50 for \$1.75; 100 for \$3.00 postpaid; 1000 for \$15.00 express. Special low prices on large quantities. Ask us. **CONOVER'S COLOSSAL**. Standard kind of first quality.

PALMETTO. Fine early variety; large size.

WASHINGTON. New rust resisting variety developed by the U. S. Department of Agriculture. So much better than other Asparagus that it seems to be in a class by itself. As a standard variety for the fancy Asparagus for the home garden or market it stands above all others in size, vigor, tenderness, quality and rust resistance. Strong roots.

The New Washington

Beaver, Pa. April 22.
F. W. BROW:

Last Spring we received an order from your nurseries and they certainly were very satisfactory. The packing was finer than any order I have ever received before. Thanking you.

Mrs. Alice F. Kerhn.

Our Rose Bargain on Front Cover Should Interest Every Lover of Flowers.
Also our Garden Seed Collection and Gladioli Bargain on Back Cover.

Choice Varieties of Cherries

The Cherry Tree is so sturdy and hearty and bears for so many years a large, bountiful crop under the most adverse conditions, that a few of them are the most valuable trees that a home man can plant. Where room is available a few of the sweet varieties are very desirable, but owing to their uncertain cropping, some of the sour varieties should be included among the selections.

Prices of Sour Cherries TWO-YEAR OLD TREES

	Each	10	100
2-3 ft.	\$0.50	\$4.00	\$25.00
3-4 ft.60	5.50	30.00
4-5 ft.70	6.00	40.00
5-6 ft.75	6.50	50.00

SOUR VARIETIES

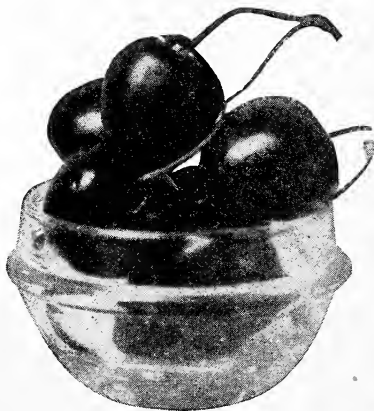

RICHMOND, EARLY—Medium size, dark red; sprightly acid flavor. This is one of the most valuable and popular of the acid cherries and is unsurpassed for cooking purposes. Tree a splendid grower; productive; hardy June.

WRAGG—Large, roundish, heart shaped; dark crimson and when ripe black or nearly so; flesh juicy, light crimson, firm and good. Very productive, hardy and a sure cropper.

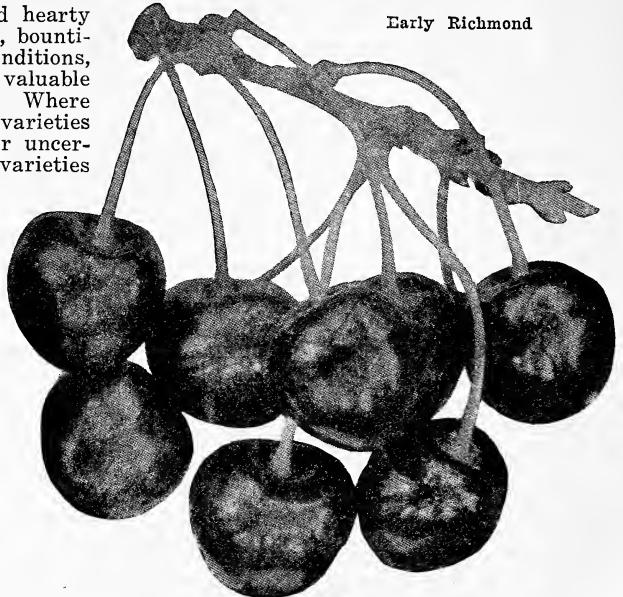

BALDWIN—Fruit very large, round, dark red; flavor slightly acid; sweetest and richest of the Morello type; unexcelled in earliness, vigor, hardiness, quality and productiveness. June.

MONTMORENCY—Large, round; red; fine flavor; sub-acid; rich; kitchen market; productive. Late June.

Read the testimonials from our customers who have purchased stock from us and see how well pleased they are. You can have this same pleasure by sending us your order.

Tartarian Cherry

Early Richmond

PRICE OF SWEET CHERRIES

	Each	10	100
3-4 ft.	\$0.50	\$3.50	\$30.00
4-5 ft.60	4.50	40.00
5-6 ft.75	7.00	50.00
6-7 ft.85	8.00	60.00

SWEET VARIETIES

SPANISH—Large, pale yellow with red cheek; flesh firm and juicy. One of the best light colored cherries for dessert. Trees very productive. June.

TARTARIAN (Black Tartarian)—Very large; purplish-black, heart-shaped, flesh mild, sweet; quality considered best for market and dessert. Tree vigorous, upright grower, good bearer. July.

BING—Fruit large, dark brown or black; delicious; considered most profitable. Tree hardy, vigorous; succeeds better than most sweets. Late.

LAMBERT—Very large, is heart-shaped; dark purplish-red turning to almost jet-black when ripe; flesh firm; rich and juicy. Tree rugged, strong grower; hardy, enormous bearer. Late July.

SCHMIDT (Smith's Bigarreau)—Very large, dark reddish black; flesh dark, tender, juicy, with fine flavor. Tree vigorous.

WINDSOR—Large, dull red; firm; fine quality; good bearer, has attracted great attention; recommended by most prominent fruit growers of country.

WOOD (Governor Wood)—Large, round, heart-shaped; yellow, mottled with red, is sweet, juicy, delicious; tree healthy, vigorous, great bearer. June.

Lee County, Kentucky. April 17th.

F. W. BROW NURSERIES:
Dear Sirs: I want to say a few words in regard to the Apple Trees, Cherry Trees and Crab Apples I received from your nursery a week ago. I own a Farm and have been ordering and setting out Fruit Trees for 10 years, but will certainly have to hand it to you on your trees, they are the best looking healthiest trees I have ever set out yet. I set them out 6 days ago and they are all budding out, I wish I had ordered more. You may however look for another order from me this fall, as I am going to set out 300 or 400 more trees.

Robert R. Brandenburg.

Raspberry Plants

Raspberries are one of the most delicious and popular fruits grown, are easily cultivated and require little care. Cut out old and weak shoots each year. Plant in good soil about 4 feet apart. With care and attention they will produce large crops of berries. Price of strong plants, except New June, 10 for \$1.10, 25 for \$2.25 postpaid; 50 for \$2.50; 100 for \$4.00; 1000 for \$30.00 by express.

RED VARIETIES

CUTHBERT—Very large; conical; rich crimson; very handsome and firm; flavor sweet, rich and luscious; a great market sort and will stand shipping long distances. Bush hardy, both north and south; stocky upright, productive. Midseason.

ST. REGIS (New Everbearing Variety)—It gives a crop of fruit all summer and autumn, fruiting on the old canes in generous quantities until late in August. By this date berries begin to ripen on the young canes and continue until late in autumn. Berries are a bright crimson of large size, and of surpassing quality, rich, sugary with full raspberry flavor.

THE GIANT NEW JUNE—Originated here in Geneva at the New York Experimental Station. An outstanding, worthwhile new variety. Mammoth in size, rich in flavor, sweet and very juicy. The plants are hardy, yield early and heavy and distributed over a long season. The fruit is a bright, handsome red, and ripens the earliest of all red raspberries. The cream of all berries on local markets—outsold all other varieties. Excellent for table use as well as for market. 5 for \$1.00; 10 for \$1.60.

PURPLE VARIETY

COLUMBIAN—Very large; deep purplish-red; sweet and highly flavored; for kitchen and market. Bush very vigorous and large grower; needs extra room as it is very productive. Early.

BLACK VARIETIES

CUMBERLAND—The largest of all the black caps; coal black berries; very firm and quality of the very best; excellent shipper. Bush a strong grower; stocky canes, unusually prolific. Mid-season.

PLUM FARMER—Large sweet and juicy but firm; very attractive and recommended for all purposes. Matures fruit in short time.

BLACKBERRY PLANTS

Strong Plants: 10 for \$1.25; 25 for \$2.50 postpaid; 100 for \$5.50; 1000 for \$40.00 by express.

BLOWER—Claimed to be the hardiest, most productive, the finest quality and for market it brings the highest price of all blackberries. Large size, jet black, good shipper, best quality and unexcelled productiveness are the main characteristics of this splendid variety.

ERIE—The mammoth blackberry. An extremely large handsome and well flavored berry, coming into market early and demanding top notch price. Very highly recommended by our State Experimental Station. This big blackberry is a strong, healthy grower, extremely hardy and a safe, dependable variety to plant. The

fruit is exceedingly sweet, and positively the best flavored blackberry.

SNYDER—Medium size. Plants hardy, healthy and vigorous. This blackberry bears well and is considered a profitable berry.

LOGANBERRY

LOGAN—The Loganberry is a hybrid between the raspberry and blackberry. Fruit large as largest blackberry and produced in immense clusters; color clear dark red. It partakes of the flavor of both the blackberry and the raspberry; very delicious; seeds small, soft and few. Ripens early, just after strawberries. Price 30c each; 10 for \$2.50.

DEWBERRIES, The Big Money Maker Berry

\$1000.00 a Year per Acre with Lucretia Dewberries

Dewberries are bringing big money and we are advising our customers to get started with them as soon as possible.

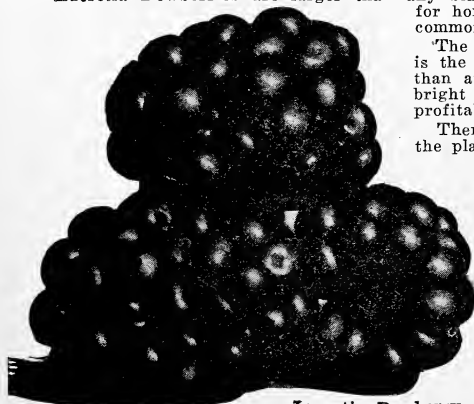

Lucretia Dewberries are larger than any blackberry, sweeter and milder in flavor, and of excellent quality for home use or market. They ripen a week or ten days ahead of common blackberries, so sell at very high prices.

The Dewberry belongs to the blackberry family, and the Lucretia is the best of them all. The large berries are incomparably better than any blackberry grown; sweet and luscious throughout, and of bright glossy black color. They are very productive, and the most profitable of all fruit crops to grow.

There are two methods of growing the Dewberry. One is to set the plants 4 feet apart in the row, with rows 6 to 7 feet apart. Allow them to grow along the row in their natural way, removing all the new growth until after blooming time, and then allow only enough new vines to grow to provide for the next crop, and at the same time shade the ripening fruit.

The other method of growing is to use short posts and wire. Grown in this way, the fruit is much easier to pick, but is not quite as early. The posts needs be only 30 to 36 inches high. Use one wire and in the spring tie all canes onto same, holding them off the ground. Let the new canes lie on the ground throughout the growing season, covering them slightly for winter protection in climates where the winters are severe. About 1,700 plants are required to set an acre.

PRICES: 5 for 75c; 12 for \$1.50; 25 for \$2.50, postpaid; 50 for \$3.50; 100 for \$6.00; 1000 for \$50.00 by express not prepaid.

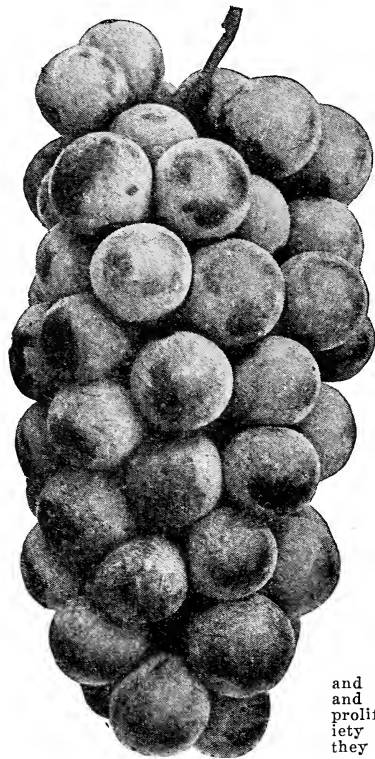

Lucretia Dewberry

Giant New June

Selected Varieties of Grapes

Grapes are one of the most productive and hardy fruits that we have. They can be grown in small spaces and trained up the sides of buildings or along fences, occupying very little room. Make the soil mellow and plant vines somewhat deeper than they stood in the nursery and about 8 feet apart by a fence or building. As a commercial crop they are as desirable as corn and as staple on the market. When a vineyard is once established it will be very productive for a lifetime with ordinary care. Poor soil should be given a liberal application of rotten manure.

Ask us for special prices on large quantities.

AGAWAM—Large, round, early, dark red or brown; large, bunched berries, meaty and free from sour pulp; has tough skin and bees never attack it; in flavor it is sprightly moderately sweet. Midseason.

BRIGHTON—Medium size, red; flesh rich, sweet and of the best quality. Ripens earlier than Delaware. Vinous, vigorous, hardy. Early.

CAMPBELL (Campbell's Early)—Large size and glossy black color; pulp sweet and juicy; seeds small, few in number and part readily from the pulp, clusters very large. An excellent keeper and shipper. Early.

CONCORD—Large, purplish black grape; very hardy and productive, ripening about middle of September. This is one of the most popular market grapes.

CATAWBA—Berries large and round, reddish coppery colored; flesh flavored, sweet. An excellent late sort. Well known as the great wine grape. Very late.

DELAWARE—Berries rather small, round skin thin, light red; flesh juicy without any hard pulp; sweet and spicy and delicious flavor. Vine moderately vigorous, hardy and productive. Midseason.

MOORE'S EARLY—Very large, round; a black with a blue bloom; quality very fine and is classed as better and sweeter than Concord. Extremely hardy and productive.

NIAGARA—Large, slightly oval; pale yellow with a white bloom; the quality is equal to Concord and is the standard white grape of the country. Bunches are large and compact. Vine vigorous, hardy and very productive.

VERGENNES—Large oval red or amber; the flesh is firm, sweet, juicy and of the best quality for dessert and market. The vine is hardy and is most desirable and quite prolific. Plant a few of this variety for use in midseason, when they are most enjoyable. Midseason.

WORDEN—The Worden is large and round and black in color; the flesh has a fine flavor unlike that of any other grape on the market; it is most delicious and melting to taste and is a grand dessert and market sort, considered as superior even to the Concord in hardness and productiveness. Early midseason.

MAMMOTH GRAPE—See opposite page for largest grape in the world. 50c each; 3 for \$1.40; 6 for \$2.60, postpaid.

READ THIS ABOUT MAMMOTH GRAPE

F. W. Brow Nurseries:

Dear Sir—During the winter of 1917-1918 I put in an order for 3 Mammoth grape vines which were received the following spring from you. The Grape is really a Mammoth in every sense of the word. I wish you could see it, and I wish to say that the quality of the grape is the best I ever ate. Sweet as honey and of immense size, very near the size of a quarter dollar. Those of the neighbors who sampled it are over enthusiastic about the grape—Edward Fox, Wisconsin.

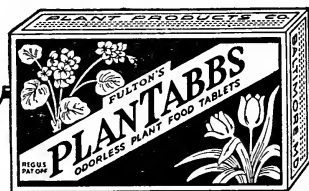

EXTRACT FROM LETTER RECEIVED

F. W. Brow Nurseries:

Sept. 4th, 1928.

I have tried out your PlanTabbs on my flowers in the house and I can recommend them. My Boston Fern has 5 new leaves and my Fuchsia has 350 bells on it, the plant is 2 feet in diameter and when my friends ask me what I do to make it blossom I tell them PlanTabbs did it. (Signed)

Noah Bryant, Wisconsin.

The wonderful odorless concentrated plant food tablets will make your plants and vegetables grow better. Easy to Apply. Results Sure. No Mess.

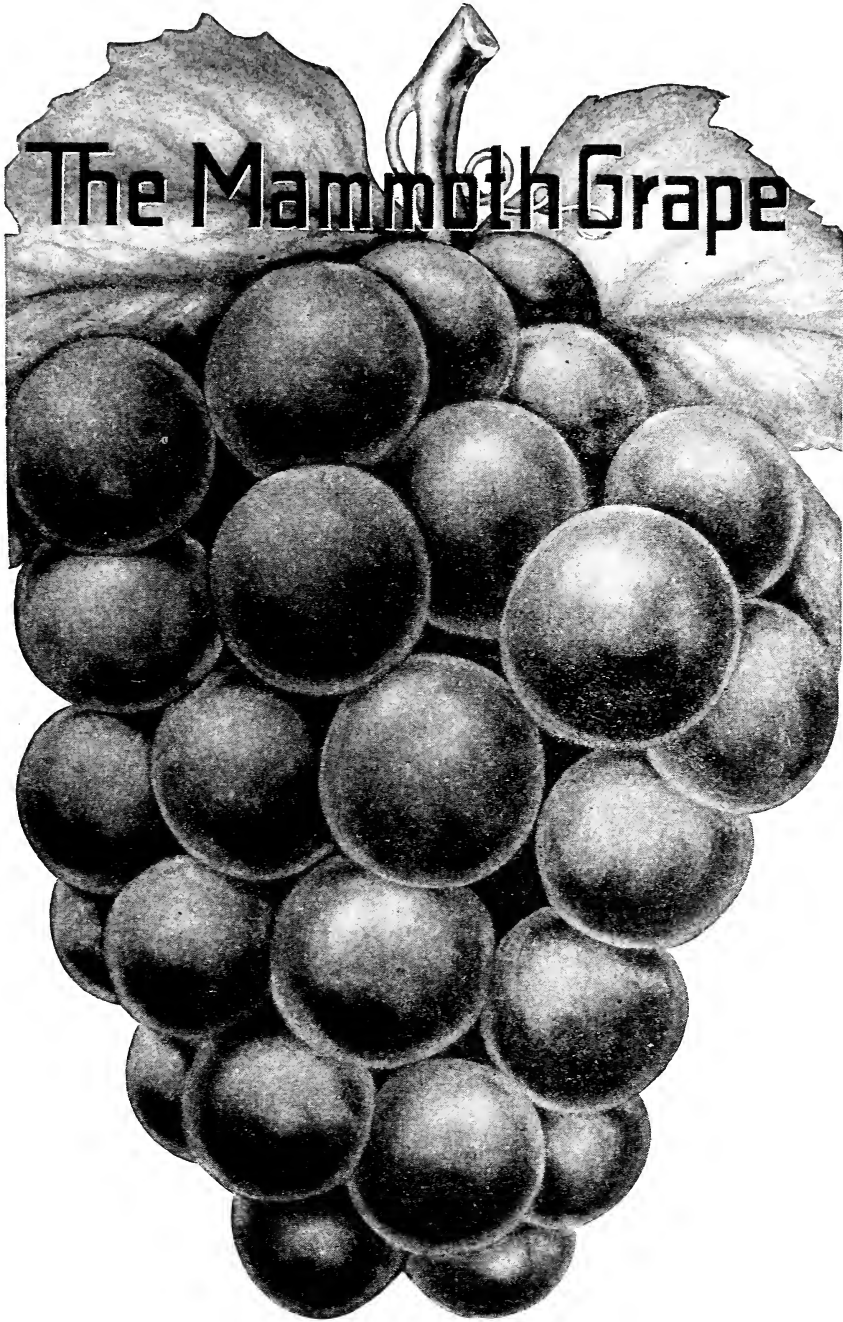

Plantabbs contain 11 per cent Nitrogen (Ammonia), 15 per cent Phosphoric acid, 20 per cent Potash, which is the highest analysis of any plant food on the market, yet accurately balanced. This analysis is equivalent to commercial fertilizer which would cost over \$90.00 per ton.

We now sell and recommend Plantabbs. Odorless, clean, easy to use, they're Trojans for work. A forkful of stable manure won't do as much for your plants and flowers as one of these concentrated, odorless white tablets! As they dissolve in water almost instantly, they make a wonderful liquid fertilizer, and when used in this way make the most wornout soil rich and fertile overnight.

Sold in 4 different sized packages and sent post paid at the following prices, 30 tablets 25c, 75 tablets 50c; 200 tablets \$1.00. A season's supply for \$3.50.

Do Not Miss Our Bargain Offers on Covers of This Catalog

Glorious Roses, \$1.20 to \$4.60; Glorious Gladioli, 12 for 45c; and a Garden of Flowers All Summer for 85c.

Surpassing all other grapes in appearance the MAMMOTH is the largest and handsomest grape grown. The vine is healthy, vigorous and productive. The clusters of fruit are large, the berries very large roundish black covered with heavy blue bloom.

Strong vines 50c each, 3 for \$1.40, 6 for \$2.60 postpaid.

Grow Delicious Strawberries

15 ACRES OF HARDY NORTHERN GROWN STRAWBERRY PLANTS

Our plants are set on ground that is prepared especially for growing sets, so that our plants have a very heavy root system and grow from the start and begin to send out runners early. Plants are fresh dug for each customer's order, carefully packed to reach you in the best condition.

25 for 75c; 50 for \$1.00; 100 for \$1.50, postpaid; 1000 for \$10.00 by express.

BIG JOE (Per.)—The plants of this variety are exceedingly vigorous and make fine fruiting rows. The foliage is healthy and attractive. The berries are produced in great abundance, one of the most productive varieties in cultivation. The berries are very large, regular in shape, glossy, attractive and very firm, making it a good variety for market. It has been tested by large growers in Oswego county who speak highly for it as a valuable variety for market. It commands the highest prices among the buyers who ship to the large city markets.

CHESAPEAKE—The standard of excellence by which most fancy berries are compared. The berries are excellent in quality; their very large, uniform shape and bright yellow seeds make them very attractive.

COOPER (S)—A remarkable new variety taking a lead in the large berried class. Fruit uniformly large, very sweet and ripening evenly. Begin to ripen early and continues over a long season. Plants very strong and heavily rooted. You should not fail to plant some of these.

DUNLAP—Medium size; dark glossy red with golden seeds; flesh reasonably firm, red and of excellent flavor. Highly recommended for all purposes. Productive and hardy. Mid-season.

DR. BURRILL—This great new variety is a strong fertilizer, and its season of blossoming and fruiting is extra long. It ripens in midseason. Dr. Burrill stands the drought best of all varieties owing to its wonderful root system. Foliage is large of a beautiful dark green and very hardy and healthy. With its extra long, strong roots, heavy crowns and healthy foliage, it is able to produce its wonderful crop of fruit every season. Berries are very dark red in color, and are of the very best quality for canning and home use, as well as one of our best shippers.

GLEN MARY—Plants large, vigorous and very productive on light or well-drained soils. Berries large, light colored, very firm and good shippers. The favorite for market with many growers who are looking for enormous crops of large berries at moderate prices.

HOWARD NO. 17—This is one of the most valuable recent introductions. A good second early, bearing good sized berries over a long season; an intensely strong grower with large, beautifully colored berries of uniformly high quality.

JUMBO—A new variety of great merit. The berries are very large. WE HAVE SEEN 6 BERRIES FROM WELL GROWN PLANTS COVER THE TOP OF A QUART BASKET. The berries are attractive and firm and ship well. Plants are vigorous and healthy and enormously productive, sometimes making a second crop in the late Fall after producing a large Summer crop, although not an ever-bearing variety. Everyone should plant this variety.

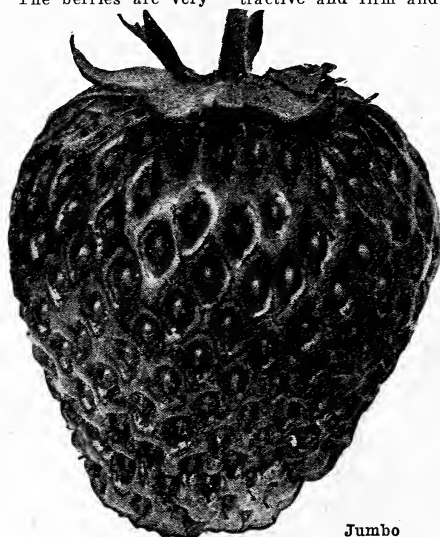

KELLOGGS DELICIOUS—If its flavor you're looking for, grow Kelloggs Delicious. This variety because of its sweet flavor is just the one for home use, or for supplying a high class discriminating trade. Very heavy cropper. Berries large, dark red clear to the center. One of the very best.

OSWEGO—One of the very best varieties grown. The plants are light green in color, large and vigorous. Berries are large to very large, wedge shaped and flat with rich dark red color on the upper side next the sun and lighter color underneath. The flavor is mild but liked by most people because it is not sour. This variety should be in every garden.

PREMIER (P.)—This is the most popular early strawberry of the day. The berries are very large, long pointed, light red in color and present a good

appearance in the basket and in market. It produces such a quality, that growers are simply carried away with it, no other early strawberry is anything near equal to it in productiveness.

STEVENS LATE CHAMPION (P.) Here is a variety whose great merits have been overlooked by commercial growers generally. It is grown for shipment to New York and other markets more largely in Oswego County than any other kind with the possible exception of Glen Mary. The plants are fine healthy growers and cover the entire space allotted to them. They do well and bear enormous crops on all kinds of soils and will produce good crops on soils too poor for most other kinds. The fruit is large to very large, bright red color, very firm and unsurpassed as a shipper.

Jumbo

Hundreds of testimonials, like the one opposite are in our files. YOU MAY DEPEND ON GETTING THE BEST WHEN YOU BUY FROM US.

F. W. Brow Nurseries
Rose Hill, N. Y.

Connecticut.

June 3rd, 1928.

Gentlemen: I wish to express to you my satisfaction with the strawberry plants which you sent me. I have bought from several places but yours were far the best plants I have ever received. They were large to start with and are all growing vigorously and blossoming more than I desire the first season.
Signed. Ralph Wentworth.

EVERBEARING STRAWBERRIES

Everbearing varieties are receiving a great deal of attention and berries were being picked in our nurseries all through the fore part of October. They produce a good crop in June as well as a heavy crop in late summer and autumn.

Strong plants, 25 for \$1.00; 100 for \$3.00 postpaid.

CHAMPION EVERBEARING (Per.)—A seedling of Progressive and a great improvement over that variety. The Champion is to the fall bearing strawberry what Senator Dunlap is to the ordinary kind.

PEERLESS (P.)—An improvement over the Superb of which it is a seedling. The plants are healthy growers and the berries are very glossy and more productive than Superb.

Shade and Ornamental Trees

By all means plant shade trees. They are effective ornamentally from the time they are set out and soon their spreading growth will create a shelter for the home that will be a pride and joy with the passing years. Contrast the heat and glare of downtown streets on a hot summer day with the inviting coolness and beauty of a well shaded residential avenue. Shade trees make the difference and the nominal outlay for planting is returned a hundredfold in greater property value and the enjoyment of pleasant surroundings.

Planting the home is not expense, but a profitable investment. It pays dividends of satisfaction.

"It's Not a Home Until It's Planted."

AILANTHUS—TREE OF HEAVEN

A. GLANDULOSA—from Japan; a lofty growing tree, with long elegant, feathery foliage; free from all diseases and insects. One of the most distinct of ornamental trees, 6 to 8 ft., trees, \$1.60 each.

ASH—FRAXINUS

WHITE ASH (Americana)—A well known native tree; very straight, with broad, round head and dense foliage. A beautiful and desirable shade tree. 5 to 6 ft. trees, 80c each.

BIRCH—BETULA

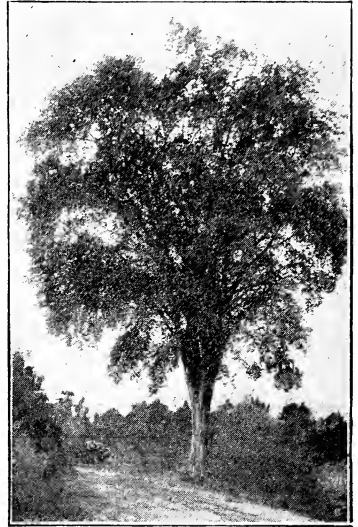

BIRCH (Cut Leaved Weeping). See page 15.

EUROPEAN WHITE (Betula Alba)—A beautiful tree with white bark and spreading and pendulous branches. Very effective for landscape. 4 to 6 ft. trees, \$1.75.

CATALPA

CHINESE (C. Bungei)—(See illustration below)—A remarkable species forming a dense, round, umbrella-like head; dome-shaped of great, soft, leathery leaves laid with shingle-like precision. Grafted on stems five to eight feet tall for border along drive, walk, or around a park where you do not desire tall trees. 4-5 ft., \$1.50 each; 2 trees, 4-5 ft. a nice matched pair for \$2.50; 5-6 ft., \$1.70 each. 2 trees 5-6 ft., a nice matched pair for \$3.00.

HARDY (C. Speciosa)—A variety which is said to have originated in the west; it is very hardy and a rapid grower and is being exclusively planted for commercial purposes; has broad, deep green leaves and beautiful large blossoms making it a highly ornamental tree for lawn or street. Valuable for planting in groves for growing poles, posts and railroad ties. 2-3 ft., trees, 40c each; 6 to 8 ft., 80c each, 10 for \$6.50.

American Elm

THE FLOWERING CRAB MALUS

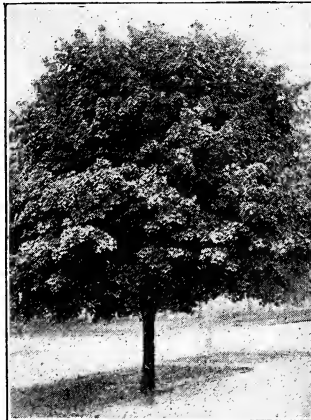

BECHTEL'S DOUBLE FLOWERING CRAB (P. Augustifolia)—Tree of medium size covered in the early spring with large beautiful flowers of a delicate pink color. One of the finest trees in cultivation and very attractive. Very decorative. 3 ft., plants, \$1.25 each.

ELM—ULMUS

AMERICAN—A magnificent tree growing 80 to 100 feet high with drooping and spreading branches. One of the fast growing and grand native trees. Makes a beautiful lawn or street tree, 6 to 8 ft. trees, \$1.15 each; 8-10 feet, \$1.65 each.

LINDEN—TILIA

AMERICAN BASSWOOD (Tilia Americana)—A large tree forming a broad, round-topped crown. Leaves broadly oval, dark green on top and light beneath, turning yellow in autumn; creamy flowers in summer, and very attractive to the honey bee. A grand tree everywhere. 6 to 8 ft., \$1.75 each.

Norway Maple

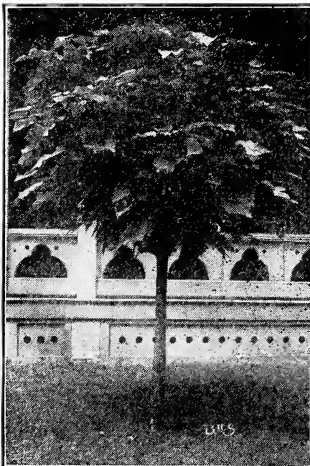

a broad, round-topped crown. Leaves broadly oval, dark green on top and light beneath, turning yellow in autumn; creamy flowers in summer, and very attractive to the honey bee. A grand tree everywhere. 6 to 8 ft., \$1.75 each.

EUROPEAN (L. Europea)—A native of the Alps with a conical head; is esteemed as a timber variety as well as a graceful landscape and park tree and is being planted more and more heavily in parks and to produce effects in landscape work. It is only suitable for well drained soils as wet, heavy soils do not insure a good growth in this species. It will make a wonderfully good tree for street planting where the drainage in cities is good. 6 to 8 ft., \$1.70 each.

MAPLE—ACER

NORWAY MAPLE (A. Platanoides)—A very handsome tree attaining large proportions, its spreading branches forming a dense, round head. It is especially desirable for street or for lawn planting, and is used extensively. Has five lobe leaves, bright green, lighter underneath, and smooth on both surfaces, fading to yellow and gold. 4-6 feet, \$2.00; 6-8 ft., \$2.25 each.

BOX ELDER OR ASH LEAVED MAPLE (A. Negundo)—A rapidly growing tree with spreading branches which grow to good size. The leaves smaller than other maples. Frequently planted as an ornamental, but especially popular as a windbreak or for timber because very hardy, withstanding cold and drought. 5 to 6 ft., 70c; 6-8 ft., \$1.00 each.

Catalpa Bungei

WRITE FOR SPECIAL WHOLESALE PRICES ON ORNAMENTAL TREES IN LARGE QUANTITIES

ASK US FOR SPECIAL PRICES ON LARGE QUANTITIES

ORNAMENTAL TREES—(Continued)

SOFT OR SILVER MAPLE (A. Dasyarpum)—A rapid growing tree of large size, irregular, rounded form; foliage bright green; for streets and parks; attains a greater height than the Norway, 4 to 6 ft., 75c; 6-8 ft., \$1.00 each.

SUGAR OR HARD MAPLE (A. Saccharum)—A well known native tree, valuable both for the production of sugar and wood; very desirable as an ornamental shade tree. 6 to 8 ft., \$2.00 each.

WEIR'S CUT-LEAVED MAPLE (A. Dasyarpum Wieri)—A variety of silver-leaved and one of the most beautiful with cut or dissected foliage; of rapid growth, shoots slender and drooping; ranks among the best as an attractive lawn or street tree. 4 to 5 ft., \$1.00. 6-8 ft., \$1.75.

MOUNTAIN ASH—SORBUS

EUROPEAN MOUNTAIN ASH (Commonly called Rowan Tree)—A fine tree with dense and regular head, covered from midsummer to winter with great clusters of bright scarlet berries. Is especially adapted to the northern regions. 6 to 8 ft., \$1.75.

POPLAR—POPULUS

CAROLINA POPLAR—A vigorous, healthy native tree of rapid growth, pyramidal in form, with large glossy leaves; valuable for park or street planting. 6 to 8 ft. trees, 50c each; 8 to 10 ft. trees, 70c each; 10 to 12 ft. trees, 85c each.

LOMBARD POPLAR (P. Fastigiata)—Attains height of 100 to 150 feet; well known for its erect, rapid growth and tall, spire form; indispensable for landscape gardening to break the monotony of other trees, 6 to 8 ft. trees, 70c each; 8 to 10 ft., \$1.00 each.

PRUNUS

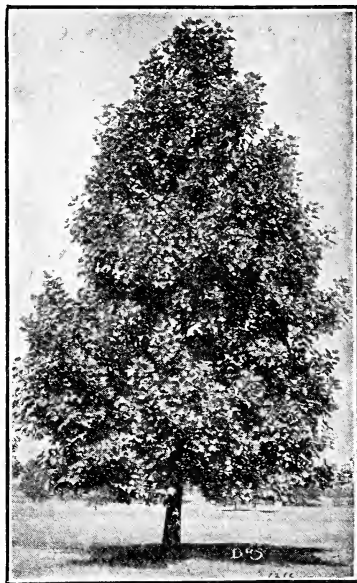

PRUNUS PISSARDI (Purple Leaved Plum)—A beautiful, purple leaved tree of recent introduction. The branches are very dark purple; the leaves when first formed are rich crimson, changing to dark purple, and retains this beautiful color until they drop, late in autumn. 3 to 4 ft., trees, 80c each. 10 for \$7.00. Fine for color effect on lawns or clump planting.

THORN—CRATAEGUS

DOUBLE WHITE THORN (C. Oxyacantha var. Alba Flore Pleno)—A small tree with spreading spiny branches; very hardy and will thrive in a dry soil; this is the famous May Hawthorn of English gardens and is very beautiful; double white rose blossoms cover the tree when in bloom. 3 to 4 ft., \$1.75. Double Crimson, same price.

TULIP TREE—LIRIODENDRON

TULIP TREE (L. Tulipifera)—A tall, pyramidal tree, rises to a great height and is clothed with a splendid foliage of large glossy leaves; large, tulip-shaped flowers are borne in the spring, greenish yellow

Tulip Tree

low and orange. One of the most distinguished tall trees. 6 to 8 ft., \$1.75.

WILLOW

LAUREL LEAVED WILLOW (S. Pentandra)—A medium sized tree with compact habits, leaves shiny dark green and fragrant when bruised, the odor resembling the Bay tree. One of the best willows for ornamental planting. 6 to 8 ft., 90c each.

BABYLONICA (Weeping)—A well known and most graceful tree of large size. Its fresh, bright green tint and long wavy branches make it very attractive, 6 to 8 feet, \$1.25 each.

A clump of 3 or 4 Prunus Pissardi makes a wonderful contrast on a rich green lawn or planted among shrubbery. Special price on 3 trees \$2.25.

Nut Trees

Plant your waste land to nut trees. Will thrive where other stock fails. The wood is exceedingly valuable and the nuts are always in demand.

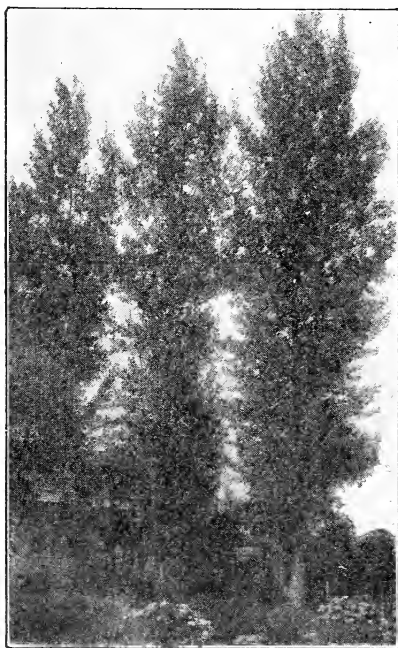

BLACK WALNUT—The common well known variety, the wood of which is most beautiful and valuable. Price: 3-4 ft., \$1.00 each.

BUTTERNUT—A fine native, rapid growing, lofty-spreading tree. Unique tropical appearance. Bears early. Price 5-6 ft., \$1.20 each.

ENGLISH WALNUT—One of the largest, most delicious meaty nuts; always in demand at a good price. Can generally be grown in any climate where peaches are grown. Price: 2-3 ft., \$1.50 each.

JAPAN WALNUT—Perfectly hardy, a rapid grower, handsome leaves, bears young and abundantly. One of the finest ornamental trees. Worthy of extensive planting. Price 3-4 ft., \$1.00 each; \$8.50 per 10.

FILBERT, ENGLISH—Of easiest culture, growing 6 to 7 feet high; entirely hardy; and one of the most profitable and satisfactory nuts to grow, succeeding on almost all soils, bearing early and abundantly; nuts nearly round, rich and of excellent flavor; admired for the dessert. Price: 3-4 ft., \$1.25 each.

Lombard Poplars

April 27th, 1927. F. W. Brow Nurseries. Gentlemen: I received my Catalpa Bungeii Trees. They arrived in good condition and they are all very fine trees—Noah Bryant, Wisconsin.

WEeping TREES

Much attention is now being given to this class of trees, and we place them separately for the convenience of our patrons. The superior grace and beauty of the weeping varieties render them especially adapted to yard, lawn or cemetery. No collection is complete without them; among ornamentals they have no superior and they should be used extensively.

BIRCH—BETULA

BIRCH, CUT-LEAVED WEEPING—Of wonderful grace and beauty. Tall, vigorous, with slender, drooping branches; foliage colors brilliant in fall, and its bare white trunk and branches are very beautiful in winter. 2 to 3 ft., \$1.75; 3-4 ft., \$2.00 each.

MULBERRY—MORUS

TEA'S WEEPING—A variety of the well known Russian mulberry. Forms a perfect umbrella shaped head with long, slender branches which droop to the ground parallel with the stem. Very beautiful and hardy. \$2.75 each.

WILLOW—SALIX

WISCONSIN (Weeping Willow)—A large tree with long drooping branches, similar to the Babylonica, but much hardier, 6 to 8 ft., \$1.25 each.

FRENCH PUSSY WILLOW (See illustration)

THE ONLY OUTDOOR SHRUB GROWN FROM WHICH YOU CAN CUT BOUQUETS DURING THE WINTER MONTHS

A select and improved type of Pussy Willow perfectly hardy anywhere in the United States. The branches of this cultivated variety are being used by florists in cities for Winter decorations and are bringing high prices. **FINEST WINTER BOUQUETS.** The branches can be cut in December, January or February placed indoors in a vase of water and they will soon come into bloom. When they are in full bloom they can be taken out of the water and they will retain their beauty for months.

WONDERFUL GIFTS FOR YOUR FRIENDS. There is nothing you can give a friend that will be appreciated as much as a bouquet of these flowers in the winter time.

THEY MAKE FINE TALL HEDGES OR SCREENS

These plants will fit in any landscape planting and should be planted on home grounds everywhere. They can be used as a background like any tall shrub such as the Lilac or Snowball. They can be used as tall hedges or screens and should be planted about four feet apart for this purpose. Planted alone, the branches cut each winter, they make a beautiful round shrub, an ornament to any home grounds. Nice bushy plants, 2-3 ft., 50c each; 3 for \$1.25; 10, \$4.00.

EVERGREENS ARE BEAUTIFUL THE YEAR ROUND

Evergreens have become an important feature in landscape plantings. Beautiful green, silver and golden foliage strongly contrasting with the intense white of the winter snows give a touch of life to the lawn that would otherwise appear bleak if only the deciduous trees and shrubbery were used. The varieties we grow are hardy for these climates and we pack so that you will have certain success with your trees.

ARBORVITAE—THUJA

AMERICAN (T. Occidentalis)—A beautiful native bright green; yellowish-green beneath; valuable for screens and hedges. 10 to 12 inch, \$1.00 each; 12 to 18 inch, \$1.50 each; 18 to 24 inch, \$1.75 each.

GOLDEN (T. Orientalis, Aurea)—Broad, bushy, grower, with deep golden foliage; ornamental. 12 to 18 inches, \$2.75 each.

PYRAMIDAL (T. Occidentalis, Pyramidalis)—A compact and narrow pyramidal tree; its branches are short and densely clothed with bright green foliage; very formal and attractive and the narrowest and most columnar of arborvitae. 12 to 18 inches, \$1.75 each; 18 to 24 inches, \$3.00 each.

SIBERIAN (T. Occidentalis Siberica)—One of the best of the dwarf growing varieties; exceedingly hardy; keeping color well; growth compact and pyramidal; makes an excellent lawn tree. 12 to 18 inches, \$1.75 each.

JUNIPER—JUNIPERUS

IRISH (J. Communis Hibernica)—A slender, columnar form with numerous upright branches; invaluable in Italian gardens and where architectural features are desired; foliage glaucous green 12 to 18 inches, \$1.75.

COMPACT SAVIN (J. Sabina) Low, spreading tree, with handsome foliage, very hardy; suitable for lawns and cemeteries. 18-24 inch plants each \$3.50.

PINE—PINUS

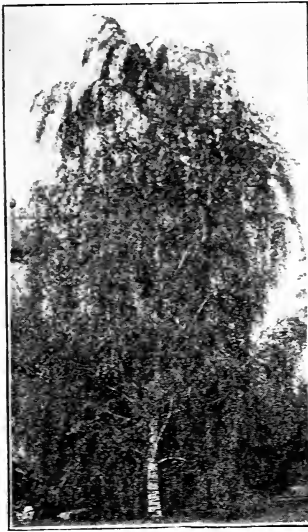

PINUS MUGHO (Dwarf Mountain Pine)—Very distinct leaves short, stiff, a little twisted and thickly distributed over the branches; does not grow tall, but spreads over the ground generally assuming a globular form; very dense, 18 inch, \$3.75 each.

SPRUCE—PICEA

EXCELSA (Norway Spruce)—A lofty tree, of perfect pyramidal form remarkably elegant and rich, and as it gets age, has fine graceful, pendulous branches; it is exceedingly picturesque and beautiful. Very popular and deservedly so. One of the best evergreens for hedges and windbreaks. 12 to 18 inches \$1.00 each; 18 to 24 inches \$1.25 each.

COLORADO BLUE SPRUCE (Picea Pungens Glauca)—The original form of the famous Blue Spruce; foliage sometimes quite blue. A vigorous grower, hardy, making fine specimens, and in great demand as a lawn tree. 12 to 18 inch plants, \$4.75 each; 18 to 24 inch \$5.75.

Add 10c each extra for baling and burlapping evergreens.

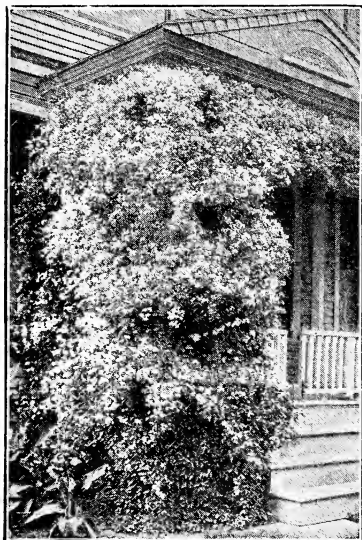

Weeping Cut-leaf Birch

French Pussy Willow

Hardy Climbing Vines

Vines always add grace and beauty. Some are prized for the color and fragrance of their flowers while others are valuable for covering brick or stone walls. Vines rank as the most beautiful plants for training on fences, old trees and over porches.

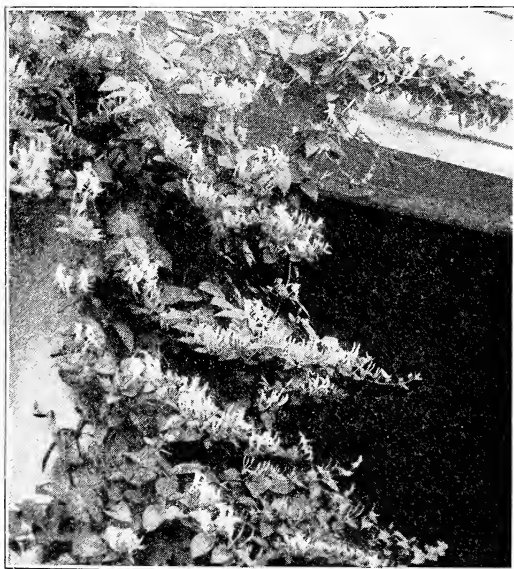

Clematis Paniculata

C. JACKMANNI—Intense violet-purple, flowers are 4 to 6 inches in diameter when fully expanded; remarkable for its rich, velvety appearance; an abundant and successive bloomer, 90c each.

C. MADAME EDOUARD ANDRE—Color a distinct crimson red, flowers very large and velvety; an abundant and successive bloomer. 90c each.

ENGLISH IVY—A popular vine having deep green and glossy foliage and unexcelled for covering walls in shady and cool places. Can be sheared into edging for walks or covering for graves. Price of good, strong vines, 75c each; 10 for \$6.50.

Hall's Everblooming Honeysuckle

AMPELOPSIS

AMERICAN IVY OR VIRGINIA CREEPER—The well known native vine with five-parted leaves that change to rich crimson in autumn; the berries are blue black. Very rapid grower and entirely hardy. One of the finest for covering walls, verandas or trunks of trees. 50c each, 10 for \$4.50.

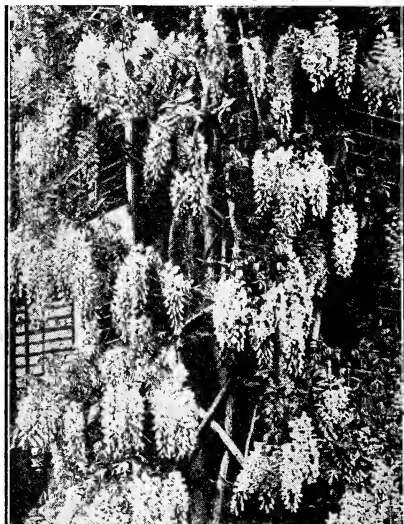

BOSTON IVY—(A. Veitchii)—A beautiful hardy Japanese species. Leaves overlap one another forming a dense sheet of green. Grows rapid and clings firmly to the smoothest surface; the foliage is very handsome in summer and changes to scarlet in autumn, 50c each, 10 for \$4.50.

ARISTOLOCHIA

DUTCHMAN'S PIPE (A. Siphon)—A magnificent native vine of climbing habit and rapid growth, with magnificent light green foliage 10 to 12 inches in diameter and curious pipe-shaped yellowish-brown flowers. \$1.20 each.

CLEMATIS

SWEET SCENTED JAPAN CLEMATIS (C. Paniculata)—Flowers are pure white, medium size, fragrant and borne in immense sheets in September. Foliage is clean and glossy, grows from 25 to 30 feet in a single season and should be cut back to the ground each spring. 50c each, 10 for \$4.50.

Chinese Wistaria

LONICERA

HONEYSUCKLE, HALL'S (Lonicera Halliana)—Blooms all summer, flowers are white, almost evergreen. 50c each, 10 for \$4.50. See illustration.

JAPAN GOLDEN LEAVED HONEYSUCKLE—A handsome and desirable variety. Flowers are creamy white and form festoons and masses. 75c each, 10 for \$6.50.

TRUMPET VINE (Bignonia)—Popular variety with showy, orange-scarlet flowers and evergreen leaves. Recommended for arbors, rocks, brightening of hedges or over old trees or logs. A strong, high grower. Price: 60c each; \$5.50 per 10.

WISTARIA

CHINESE PURPLE WISTARIA (W. Sinesis)—Rapid growing. 15 to 20 feet in a season; long pendulous clusters of pale blue flowers in May, June and autumn. 90c each.

W. CHINESE WHITE—Same as above except that flowers are pure white, 90c each. See illustration.

HARDY VINE COLLECTION

One Wistaria; One Hall's Honeysuckle
One Clematis Paniculata; One English Ivy
Catalog Price \$2.65.

Bargain Price for the 4 plants \$2.50

Hardy Flowering Shrubs

Beautify Your Home Grounds and Increase Property Value

There is no home or farm in the whole country which cannot be improved in appearance and enhanced in value by the plantings of appropriate trees, shrubs, and plants.

By a proper selection from the varieties listed on the following pages, the home maker can have interesting specimens in their most perfect state, interesting to himself and the passerby at all times of the year.

ALMOND

DOUBLE FLOWERING—Spring flowering shrubs, in full bloom before the leaves appear. Their growth is dwarf, bushy, and compact; slender branched; when in bloom completely hidden by beautiful, double flowers of rose or white, snuggling tight to the twigs. Double White and Double Pink, 2 to 3 ft., 75c each, 10 for \$6.00.

BUDDLEIA

BUTTERFLY BUSH (Summer Lilac)—One of the most admired and sought after shrubs in the trade. Of quick bushy growth; when the lovely bloom-spikes appear in July, the shrub, which had probably died down nearly to the ground during the winter, is now a perfect specimen of about five feet; radiating a delightful perfume and glowing with the tints and flower shapes of the Spring lilacs, 50c each; 10 for \$4.00. (See illustration.)

BARBERRY

JAPANESE—See illustration and prices on inside front cover.

DEUTZIA

GRACILIS—A dwarf variety covered with a profusion of white flowers in June. Fine for dwarf border effect. 18 inch plants, 65c each.

PRIDE OF ROCHESTER—Grows 6 to 8 feet high, blooms in early spring with large, double white flowers. A distinct and valuable variety. 50c each.

Our Shrubs are strong transplanted plants, 3 and 4 years old, 2 to 3 feet and bushy, except the Dwarf varieties which are marked and will make an immediate effect after planting. If desired by parcel post add 10c extra.

Deutzia, Pride of Rochester

Weigela

Buddleia, Butterfly Bush

DIERVILLAS WEIGELA

CANDIDA WEIGELA—This is the very best of all the white flowering Weigelas. A strong, upright, erect grower; flowers pure white and produced in great profusion in June and continues to bloom throughout the entire summer. 65c each.

EVA RATHKE WEIGELA—A charming new variety: flowers brilliant crimson; a beautiful distinct clear shade; flowers twice in one season 18 to 24 inch plants, 75c each.

ROSEA WEIGELA—A hardy and beautiful shrub bearing in May a profusion of rose colored flowers. 65c each.

VARIEGATED WEIGELA—Fine, variegated foliage and lasts the entire season; contrasts finely with its rose-colored flowers. 70c each.

ELEAGNUS—OLEASTER

SILVER THORN (E. Longipes)—Grows 5 to 8 feet high, of bushy habits. Foliage dark green above with silver beneath, very showy. Blossoms in April or May are creamy white, followed by edible fruit, delicious for sauces. Fruit ripens in July, 70c each.

FORSYTHIA

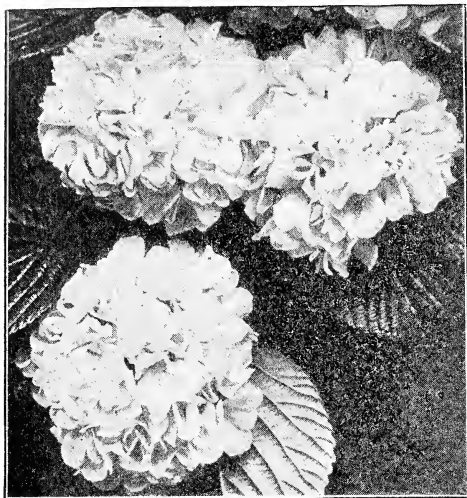

HYBRID GOLDEN BELL—Grows 8 to 10 ft. high with slender, arching branches. Foliage lustrous dark green, blooms very nearly in the spring, often before the snow is off the ground. One of the most showy plants in cultivation. 65c each.

HIBISCUS SYRIACUS

ALTHEA, ROSE OF SHARON—Grows 8 to 10 feet high, resembling small flowering tree; if planted closely together they make a good flowering hedge. Blossoms late in the fall. A number of colors, 50c each.

Read the testimonials from our customers who have purchased stock from us and see how well pleased they are. You can have this same pleasure by sending us your order.

DON'T MISS SEED BARGAIN OFFER ON INSIDE BACK COVER. A GARDEN FULL OF FLOWERS ALL SUMMER FOR 85c. SHRUB COLLECTION AND HEDGE BARGAINS INSIDE FRONT COVER.

Japan Snowball

SHRUBS—(Continued)

HYDRANGEA

HARDY (*H. Paniculata Grandiflora*)—A beautiful, tall shrub; foliage of bright shiny green; the flowers are borne in August and September in huge panicles from 8 to 12 inches long. Beautiful as a border or can be grown in in tree form. Bush plants, 18-24 inches. 60c; 10 for \$5.00; Tree form, 2 to 3 ft. stem. \$1.10.

ARBORESCENS ALBA GRANDIFLORA—(The Snowball Hydrangea) or (Hills of Snow)—Flowers borne in panicles of pyramidal shape from 8 to 10 in., in diameter and 8 to 10 in. long. White flowers from June to October. 70c each. 10 for \$6.00.

HONEYSUCKLE

BUSH TARTARIAN HONEYSUCKLE (*L. Tartarica*)—Grows 8 to 10 ft., with numerous branches; bright green; blooms in late spring with white or pink flowers. 60c each. 10 for \$5.00.

LILAC

COMMON LILAC—Grows up to 25 ft. in height; upright habits; blossoms in May with dense fragrance. White or purple, 2 to 3 ft. plants, 75c each

DOUBLE FRENCH LILAC—Are more dwarf than the single flower kinds; the flowers last longer and are larger and double, \$1.50 ea.

SPIREA

(By parcel post, 10c extra)

BRIDAL WREATH (*Prunifolia*)—Grows 5 to 7 feet tall; foliage glossy green, orange in autumn; blossoms cover the entire length of the graceful arching branches. 2 to 3 feet, 70c each.

ANTHONY WATERER—Dark crimson, flowers all summer. One of the finest shrubs, 18 to 24 inches 60c.

THUNBERG'S SPIREA—Grows to 5 feet high, with numerous slender branches, forming a dense feathery bush. Pure white flowers, 18 to 24 inches 60c each.

VAN HOUTTE'S SPIREA—Grows 5 to 6 feet high, spreading branches; foliage lustrous green blossoms in spring with large and showy flowers. Bushy 2-3 ft. plants 40c each; 10 for \$3.50; 100 for \$30.00.

See Special Prices on Spireas for hedges. Page 19.

EARLY TO LATE COLLECTION

Deutzia, P. of Rochester, Weigela, Rosea; Spirea, V. Houttii; Syringa, Mock Orange; Forsythia, Golden Bell; Spirea, A. Waterer; Hydrangea, P. Grandiflora.

Bargain Price for the 7 plants \$3.50
Catalog Price \$4.00.

PRIVET—LIGUSTRUM

See Hedge Plants—Page 19.

PHILADELPHUS

If desired sent by parcel post add 10c extra.

COMMON MOCK ORANGE OR SYRINGA—Grows 8 to 10 feet high with upright or arching branches; foliage bright green; blossoms in May with great quantities of creamy white flowers. 60c each.

AUREA GOLDEN SYRINGA—A new gold leaf shrub of delicate growth and beauty. It is sufficiently free to make it very valuable for clumps and hedges. 18 to 24 inch bushy plants, 80c each.

PYRUS JAPONICA—JAPAN QUINCE

P. JAPONICA RUBRA (Scarlet Japan Quince)—Especially well adapted for hedges and ornamental shrubbery. Its beautiful red flowers and rich green foliage make a very charming effect. 18-24 inch, 60c each.

VAR. ALBA (White Japan Quince)—Flowers slightly tinged with pink. A very beautiful shrub. 60c each.

SAMBUCUS

GOLDEN ELDER (*S. Nigra Aurea*)—Similar to the American, except the foliage is an attractive golden color. Bears large crops of Elderberries. 60c each.

SNOWBALL VIBURNUM

VIBURNUM PLICATUM (Japan Snowball)—A rare and exceedingly beautiful species of Japan; flowers in large, globular heads; pure white, hanging long on the bush; a very choice and desirable shrub. Blooms in May. \$1.00 each. See illustration.

VIBURNUM OPULUS (Cranberry, High Bush)—A very decorative native shrub, growing 8 to 10 feet high, with white flowers in May followed by beautiful, showy clusters of scarlet fruits, 80c each.

VIBURNUM OPULUS STERILIS (Common Snowball)—Grows 6 to 8 feet high, the old-fashioned Snowball; its large globular clusters of pure white flowers are produced in May and June, and make a very attractive appearance. 80c each.

Common Snowball

SNOWBERRY SYMPHORICARPUS

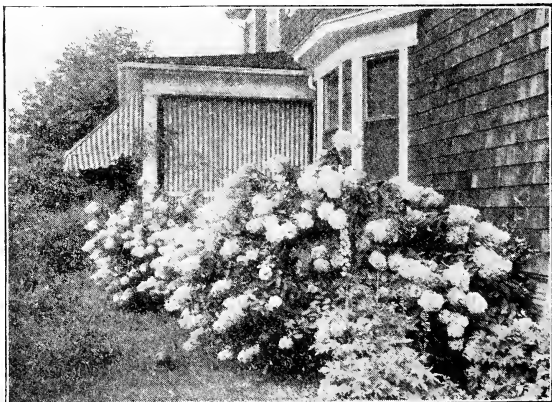

RACEMOSUS (White)—Small, rose-colored flowers in June and July, followed by large clustered, milk-white fruits, which remain far into winter. The combination of pink flowers and white berries on the same twig is charming. July and August. 60c each.

VULGARIS (Red Indian Currant)—A low growing, graceful shrub. Its fruits are red, and the smaller red berries cluster in thick ropes along the weighted-down stems. August. 50c each.

Mass. May 25.

F. W. Brow Nurseries:

Gentlemen: The shrubs we bought from you, 40 or more, all lived and are beautiful. The Grape Vines are also all very strong and doing well.
—Dr. H. L. Stover.

Hydrangea, P. G.

Chinese Cinnamon Vines

"Dioscorea Batatas"—Headquarters Stock

Cinnamon Vines are the most desirable, easiest grown climbers in the world. They are from China the land of wonders. Their abundant blossoms perfume the air for a long distance. No words can describe the delicious fragrance. Perfectly hardy—thriving in all soils, in sun or shade, wet or dry. No insects, blight or disease of any kind ever troubles them. In cold sections the tubers should be lifted and stored in a cool dry place through the winter.

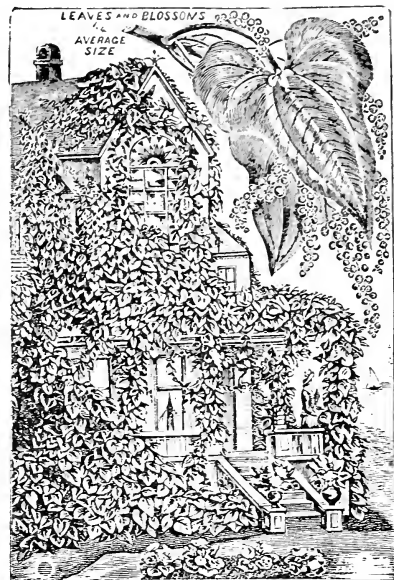

They will quickly climb 30 feet or more, and surround your windows and cover your porches, walks, etc., with a mass of vines—covered with pretty heart-shaped leaves and a profusion of dainty white, sweet-scented flowers, making them perfect "Bowers of Beauty." No lover of the beautiful should miss planting Cinnamon Vines. They have a charm unknown to all other climbers.

CHINESE CINNAMON VINES—Strong tubers. 15c each, 4 for 50c. Do not fail to plant this grand climber.

READ THESE TESTIMONIALS—COULD FILL PAGES

From Prof. W. H. Morse, Agricultural Chemist, Hartford, Conn.—"Your Cinnamon Vines were the marvel of the city. They were more wonderful, more pleasing and more fascinating than ever. Their sweet perfume captivates every heart."

From Lydia and M. J. Clarkson—Authors of "Art Studies."—"No Vines ever give us so much continued pleasure. Their growth is truly phenomenal. Their handsome foliage and fragrant blossoms commend them to every lover of flowers. If their merits were more widely known you would be overwhelmed with orders."

ORNAMENTAL HEDGES

Not many years ago the only hedges to be seen were those used for defense or defining boundaries, but today they are planted extensively for ornament. Many beautiful effects are now possible, and it is needless to say that these fences of living green beautify our homes and are rapidly supplanting the old fashioned picket and iron fences. The most widely planted hedges are the California Privet and Barberry *Thunbergii* (illustrated inside front cover). Other shrubs that make good hedges include *Spiraea Van Houttei*, shown on this page.

BARBERRY (*Thunbergii*)—A beautiful variety with small foliage, assuming the most varied tints of coloring in the autumn. See illustration and prices inside front cover.

HONEY LOCUST—12 to 18 inches, \$5.00 per 100.

PRIVET, AMOOR RIVER—Very similar to California Privet, but much hardier. Will stand the coldest winters. 12 to 13 inches, 10 for \$1.00; 100 for \$8.00.

PRIVET, IBOTA—This variety of Privet is much harder than the California and will withstand the severest winter when the California Privet will kill out. 12 to 18 inches, 10 for \$1.50; 100 for \$10.00.

PRIVET, CALIFORNIA—See illustration and prices inside front cover.

RHAMNUS CATHARTICUS (Buckthorn)—A hardy ornamental shrub or small tree, growing to about twelve feet in height, and usually thorny. The inconspicuous greenish flowers appear in auxiliary clusters shortly after the leaves and are followed by black berries, 1½ to 2 feet, 25c each; 10 for \$2.00; 100 for \$19.00.

SPIREA VAN HOUTTEI—The grandest of all the white *Spireas*; it is of compact habit and a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom. Fine for ornamental hedge, 2 to 3 ft. plants, 10 for \$3.50, 100 for \$30.00; 18 to 24 inch plants, 10 for \$2.50; 100 for \$20.00.

Special prices on larger quantities

Spiraea Van Houttei

HERE IS THE QUEEN OF ALL THE FLOWERING SHRUBS, SPIREA VAN HOUTTEI—And it makes one of the best ornamental hedges. What could be nicer than a dividing fence between properties or along driveways than this beautiful shrub. See description and prices above. Easy to Grow.

Pot Grown Roses for Outdoor Planting

These Roses are propagated on their own roots. No briars or suckers will grow from the roots, like the grafted plants. Roses on their own roots, as we grow them, are the best for the amateur planter. Our stock is larger than ever before and if possible in finer condition. To those unaccustomed to planting own root roses, we would advise that the plants are much smaller than budded or grafted plants, but they give plenty of flowers, and each year become more vigorous and are not killed off, like the budded or grafted plants, with briar suckers growing from the roots. (H. P.) Hybrid Perpetual, (H. T.) Hybrid Tea, (T) Tea Roses.

BROW'S TESTED EVERBLOOMING ROSES

ALEXANDER HILL GRAY (T.)—"Best and largest pure yellow Tea Rose." It is wonderfully productive, every shoot being crowned with a flower bud, which develops into a beautiful straw-yellow bloom. 1-year 25c each; 2-year 70c each.

AMERICAN BEAUTY (H.P.)—The most famous of American Roses. Rich color and delicious fragrance. Deep brilliant red, shading to a rich carmine crimson. Price 1-year 35c; 2-year 80c.

AMERICAN LEGION—Fragrance surpasses even that of LaFrance. Dark blood red flowers. An American Rose for American gardens. 1-yr. 30c; 2-yr. 80c.

ANTOINE RIVOIRE (H. T.)—Charmingly shaded rosy flesh on yellow ground; flowers sweetly fragrant. 1-year 25c each; 2-year 70c.

ANNA DE DIESBACH (Glory of Paris) (H.P.)—Brilliant pink; long pointed buds, very full and sweet. 1-year 25c; 2-year 75c.

BESSIE BROWN (H. T.)—Blooms are of enormous size, of heavy substance and are perfect in shape, lasting splendidly when cut. Snow white, flushed and tinged with pink. Foliage is well up to the flower. 1-year, 28c each; 2-year 70c.

BLUMENSCHMIDT (T.)—It is a pure citron-yellow outer petals edged tender rose. It is a splendid bedding sort, flowering abundantly and growing freely; fine stems and foliage. 1-year plants 20c each; 2-year 65c.

CLOTHILDE SOUPERT (H. P.)—Truly a wonderful rose for bedding or for pot culture. Creamy white shading to deep pink at center. This Rose will produce more blooms than any other variety we offer. Price, 1-year 20c each; 2-year 65c.

COLUMBIA (H. T.)—It is a big Rose, the open flower measuring six inches across. Color, true pink, deepening as it opens to a glowing pink. 1-year, 25c each; 2-year 70c each.

CRIMSON QUEEN (H. T.)—A comparatively new Rose of bright velvety crimson. Vigorous grower. 1-year, 25c each; 2-year 70c each.

CRUSADER (H. T.)—A big strong, robust growing variety, with rich velvety maroon blossoms. Strong stems. Fine for cut flowers. 1-year 30c each; 2-yr. 75c.

CAPTAIN CHRISTY (H. P.)—Fresh, delicate pink, shading deeper in the center of the flower. The whole flower has a satiny appearance. Price, 1-year, 25c each; 2-year, 70c.

CLO (H. P.)—(The Peony Rose)—Flowers very large; color flesh shaded in center to rosy-pink. The flowers at perfection are as large as Peonies. Fine for cut flowers, 1-year 30c each; 2-year 85c.

DUCHESS OF WELLINGTON (H.T.)—(Monthly blooming.) Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers develop. The flowers are full, with

large petals, great substance, delightfully fragrant, and very free-flowering. 1-yr., 30c; 2-year 80c.

ETOILE DE FRANCE (H.T.)—A brilliant shade of velvety crimson. Very striking. Flowers are extremely large on long, but stiff stems—unexcelled for cutting. Price 1-year 25c; 2-year 70c.

FLORENCE PEMBERTON—Distinctive creamy white, shaded rose, bordered with salmon. One of the best distinctive Hybrid Tea varieties. 1-year 28c each; 2-year 75c each.

FRANCIS SCOTT KEY (H.T.)—Black-grained intense scarlet crimson blooms. Richly perfumed. Francis Scott Key is a Rose that should be planted in every garden. 1-year 28c; 2-year 70c.

FRAU KARL DRUSCHKI (H. P.)—Splendid buds and immense flowers. 4 to 5 inches across, clear white, perfectly double. 1-yr., 40c each; 2-year 70c each.

GENERAL MCARTHUR (H.T.)—Bears large, bright, crimson scarlet flowers on long stems. Famed as an outdoor Rose. 1-yr. plants 25c; 2-yr. plants 70c.

GOLDEN OPHELIA (H.T.)—A most pleasing tint of salmon-flesh, with golden yellow suffusions. A Rose that is admired by everyone. 1-yr. 28c; 2-yr. 75c.

GENERAL JACQUEMINOT (H.P.)—"The most famous Rose in the country." Strong, vigorous grower entirely hardy. Brilliant shining crimson. 1-year, 25c; 2-year 70c.

GLOIRE LYONNAISE (H.P.)—A pale shade of chamois or salmon yellow, deepest at center, sometimes passing to a rich, creamy-white finely tinted orange and fawn. 1-year 30c; 2-year 75c.

GROOTENDORST—Clustered flowers bright red, fringed and double. Heavy foliage. 1-yr. 35c; 2-yr. 80c.

HELEN GOULD (H.T.)—A delicate pink with pleasing pure Rose perfume. 1-yr. 24c each; 2-yr. 65c.

HUGONIS, "GOLDEN ROSE FROM CHINA"—Intense canary yellow flowers, hollyhock shaped and produced in profusion. 1-year 38c; 2-year 80c.

JONKHEER MOCK (H.T.)—The flowers are of large size and perfect form, of a deep imperial pink, the outside of the petals rose-white. Highly perfumed. 1-year 28c each; 2-year 70c.

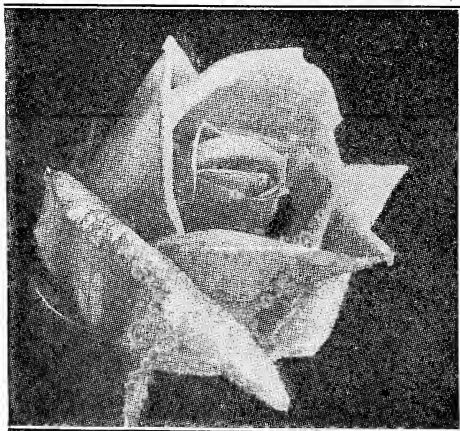

J. B. CLARKE (H. P.)—Blooms very large; color intense scarlet shaded crimson-maroon; very fragrant. As hardy as a lilac. 1-year 28c each; 2-year 70c.

JUBILEE (H.P.)—Immense, globular, bold flowers of glowing velvety crimson, with shadings of maroon. A grand Rose from every point of view. Price, 1-year, 25c each; 2-year, 70c.

KAISERIN AUGUSTA VICTORIA (H.T.)—The best white Rose in the world. It is a continuous bloomer; shows no center when fully open; color snowy white. 1-year plants, 25c; 2-year 70c.

KILLARNEY (H.T.)—Remarkable for the size of its intensely fragrant, brilliant sparkling pink flowers. 1-year, 28c each; 2-year 75c.

LADY ALICE STANLEY (H.T.)—The blooms are a beautiful shade of coral rose, the inside of the petals shading to flesh pink, with deeper flushes 1-year 25c; 2-year, 70c.

POT GROWN ROSES—CONTINUED

LADY HILLINGDON—(T) A rich shade of yellow which does not easily fade. 1-year 25c; 2-year 70c each.

LADY MARY WARD—Color, rich orange, shaded deeper apricot-orange, with a decided metallic veining, the greatest novelty color yet seen in Roses. 1-yr. 28c each; 2-yr. 75c.

LADY PIERRE (H.T.)—Full flowers; free blooming. Lovely apricot yellow in color. A grand Rose in every respect. 1-year 25c each; 2-year 70c.

LADY PLYMOUTH (T)—A most distinct Rose of ivory cream, very faintly flushed pink. Price, 1-year plants, 25c each; 2-year plants, 70c each.

LAURENT CARLE (H.T.)—Brilliant velvety carmine, with long stems, opening into large flowers of perfect form and fullness. An extremely vigorous grower of erect branching habit, with splendid dark green foliage. 1-yr. 28c; 2-yr. 70c.

MADAME COLETTE MARINETTE (T)—Color, beautiful coppery orange, buds opening cup shaped and fragrant. The blooms are large, borne on good stems; the distinctness of the variety pleasing all Rose lovers. Price 1-year 28c; 2-year 70c each.

MRS. AARON WARD (H.T.)—The bloom of this variety is of a most pleasing and attractive shade—Indian-yellow, washed with salmon-gold. "Everybody's Rose." 1-year 30c; 2-year 70c.

MRS. GEO. SHAWYER—Buds are large and of a brilliant shade of pink. Fine for bedding. 1-yr. 25c each; 2-yr. 70c.

MADAM PLANTIER—"Especially valuable for cemetery planting." A white Rose admirably adapted to cemeteries or hedge plantings. 1-year 25c; 2-year 65c each.

MADAME MASSON—Velvety crimson with fiery center. Fragrant. It grows robust and compact. 1-year 28c each; 2-year 70c.

MARSHALL P. WILDER—A vigorous grower with handsome foliage; free and perpetual bloomer; color brilliant crimson shaded scarlet; very large of exquisite form, with large smooth petals, slightly reflexed on the edges. 1-year 28c each; 2-year 70c each.

NATIONAL EMBLEM (H.T.)—Unmatched in its velvety richness. Could be well termed the "Velvet Rose." Dazzling crimson in color and delightfully sweet-scented. 1-year 28c each; 2-year 70c.

OPHELIA (H.T.)—Salmon-flesh color, shaded with rose. Large flowers, long stems, fine for cutting. 1-year plants 28c each; 2-year 70c.

PINK DRUSCHKI—Pink form of the popular white Rose Frau Karl Druschki. The rosy-pink blooms are highly perfumed. 1-year, 30c each; 2-year 85c each.

PREMIER—Truly a big Rose that is ideal among the everblooming varieties. Large broad-petaled pink blooms. Deliciously fragrant. 1-yr. 25c; 2-yr. 70c each.

PAUL NEYRON—Paul Neyron has the distinction of producing the largest of Roses. Color, clear, pink, shading to rose—most beautiful in the massiveness of the blossoms. Fragrant with mild touch of apple blossoms. Strong and vigorous grower. 1-yr. 25c each; 2-yr. 70c.

RED LETTER DAY (H.T.)—An exceedingly beautiful Rose of infinite charm. Its velvety brilliant glowing scarlet crimson buds and fully opened cactus-like flowers never fade. 1-year 25c each; 2-year 70c each.

RED RADIANCE (H.T.)—One of the finest of the cut flower type. Flowers are brilliant carmine-red, a color of wonderful brightness and charm, and a color that never fades. 1-year 28c; 2-year 70c.

RHEA REID (H.T.)—The reddest of red Roses. Extra large; wonderful foliage; strong grower. 1-year 25c each; 2-year 70c.

ROBIN HOOD (H.T.)—One of the best dark reds. Grand grower. Rosy scarlet flowers freely produced. New. 1-year 25c each; 2-year 70c.

SUNBURST (H.T.)—Very striking flowers of rich yellow, with orange center. Perfect both in bud and bloom. 1-year 35c each; 2-year 80c.

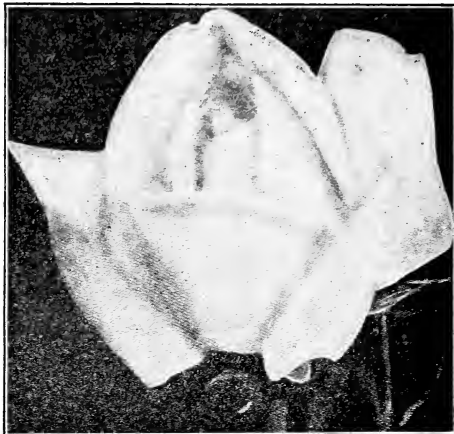

SENSATION (H.T.)—This rose is all that the name implies. It has enormous scarlet crimson blooms of fine deep form. The buds are long pointed and the open flower beautiful, has 30 to 35 petals of great size and substance. Stems long jointed and strong and has beautiful foliage. 1-year plants 35c; 2-year 80c.

ULRICH BRUNNER—Considered one of the finest Roses in existence. Color, cherry red. A seedling of Paul Neyron from which it derives its immense size. Intensely fragrant. 1-year 28c; 2-year 70c.

WHITE KILLARNEY (H.T.)—One of the most exquisite white Roses grown. Strong and upright. Deep bronzy-green foliage. 1-year 25c each; 2-year 70c.

WHITE MAMAN COCHET (T)—Very large and beautifully formed in bud and bloom; pure waxy-white under lase, taking on a faint pink flush out of doors which enhances its beauty. Vigorous and produces abundantly for cutting. 1-year 20c each; 2-year 75c.

NOTE—The pot grown roses are packed separate from other plants and sent postpaid.

Frau Karl Druschki

THE FOUR NEAREST BLACK ROSES

BLACK PRINCE—Deepest blackish crimson, with pronounced maroon shades. A very distinct coloring. 1-year 28c; 2-year 70c.

GLOIRE DE BRUXELLES—Velvety crimson. Almost black. Best of all. 1-yr. 30c; 2-yr. 75c.

HIS MAJESTY—Deep vermilion. Highly perfumed and highly recommended. 1-year 28c; 2-year 70c.

PRINCE CAMILLE DE ROHAN—One of the darkest of Roses, blood red and maroon. 1-yr. 30c; 2-yr. 75c.

SPECIAL OFFER—The 4 in 1-year plants 95c; the 4 in 2-year plants \$2.50.

OUR BARGAIN COVER ROSE COLLECTION
MAY NOT BE OFFERED AGAIN

Do not miss this opportunity to get the SUPER-SIX Roses offered on front cover of catalog. Here is the Description of These Six Grand Roses. **DUCHESS OF WELLINGTON**—The best yellow rose to date. It will take a mighty good one to dethrone this queenly variety. Its lovely buds are very long and pointed and change as they unfold from a deep orange yellow to lemon and lighter shades. The flowers are rich tea-scented and freely produced.

LOS ANGELES—A rose of unusual beauty of coloring being luminous flame pink toned with coral and shaded with translucent gold at the base of the petals. Perfect form with long pointed buds on erect strong branches, exquisite for cutting.

MRS. AARON WARD—The blooms of this variety is of a most pleasing and attractive shade of Indian Yellow, washed with salmon gold. This rose is a general favorite with everyone.

PINK RADIANCE—The best and most popular pink rose in America. It stands at the top of a list of 100 favorite varieties chosen by leading American experts because of its exceptionally free blooming qualities. The fragrant flowers are large globular and of a brilliant rose pink with lighter tints on the inner surface of the petals. The shapely big buds are borne on long stems.

RED RADIANCE—Its big bouncing blooms of cerise red endear this rose to all lovers of the Queen of Flowers. It is a very free bloomer and the buds are particularly fine in the half open state. The flowers are quite good for cutting but also endure well in the garden and hold their color. It is very fragrant and sweet.

SENSATION H. T.—is all that the name implies, with its enormous scarlet crimson blooms of the finest deep form. The buds are long pointed and the open flowers beautiful having 30 to 35 petals of great size and substance. Strong stems and beautiful foliage.

POT GROWN ROSES—(Continued)**HARDY CLIMBING ROSES**

AMERICAN PILLAR—Its great mass of bloom fairly covers the bush. Flowers measure three to five inches across. A beautiful Rose—highly recommended. Never troubled with insects. 1-year 22c each; 2-year plants 55c.

BLUE RAMBLER—Magenta blue in color. A perpetual source of wonder. Absolutely different from any other rose. 1-year 26c; 2 year 60c.

CLIMBING AMERICAN BEAUTY—Large glowing red; fragrant; very hardy. Has all the good qualities of American Beauty with the addition of the climbing habit. Unexcelled as a porch or trellis cover. Price 1-year, 24c each; 2 year 70c.

CLIMBING PINK AMERICAN BEAUTY (Christine Wright)—Strong climbing habit, large heavy dark green foliage; immune to disease. Flowers are $3\frac{1}{4}$ to 4 inches in diameter, borne singly and in clusters. Color bright wild-rose pink. 1-year 24c each; 2 year 65c each.

DECEOTHY PERKINS—A wonderful fast-growing shell-pink climber. Cluster flowering. 1-year 26c; 2 year 70c.

DR. W. VAN FLEET—"Flowers over four inches across." Color a delicate shade of flesh pink, deepening to rosy-flesh in the center. Stems 12 to 18 inches in length. A peer among climbers. Don't fail to plant this one. 1-year, 26c each; 2 year 70c.

EXCELSA—Bright crimson flowers borne in clusters of from twenty to forty blooms, almost concealing the foliage. The best of the red cluster flowering climbers. 1-year 28c; 2 year 65c.

HARDY MARECHAL NIEL (Gardenia)—There is an unlimited demand for this wonderful Rose, which produces a mass of fragrant, golden yellow flowers. They are of globular shape; large, and double. Has grown over twenty feet in a season. Requires little or no care. 1-year, 24c each; 2 year 70c.

PAULS SCARLET CLIMBER—The flowers of this superb Rose are vivid scarlet shaded with bright crimson, and are produced in double, borne on good stems. 1-yr., 26c each; 2 year 70c.

SHOWER OF GOLD—Color deep golden yellow with orange shadings. Beautiful metallic foliage. Contrasted with a pink or red Rose it is very showy. 1-year, 24c; 2 year plants, 70c.

SILVER MOON—Flowers run four inches and over in diameter. Clear silvery white in color, petals of great substance and beautifully cupped. Long stems. Foliage immune from mildew. 1-year 28c each; 2 year 75c.

THOUSAND BEAUTIES—A single cluster of flowers is a whole bouquet in itself. The colors run from delicate balsam or tender rose, with white, yellow and various other tints showing. Few thorns. Very hardy. 1-yr. 24c; 2-year 65c.

WHITE DOROTHY PERKINS—Best hardy white cluster-flowering climbing Rose grown. A splendid companion for Dorothy Perkins blooming at the same time. 1-year 24c each; 2 year 60c.

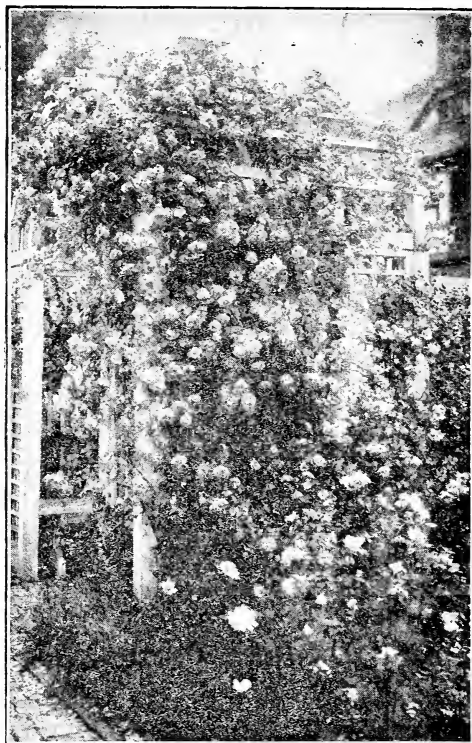

DWARF EVERBLOOMING BUSH POLYANTHA ROSES

BABY DOLL—Golden yellow, tipped with cerise. The "sweetheart" Rose. Excellent for both summer and winter blooming. 1-year 26c each; 2 year 70c.

BABY RAMBLER—It forms compact bushes, covered with clusters of rich cherry-red flowers throughout the season. 1-year, 26c each; 2 year 70c.

ELLEN POULSON—Comparatively new. Rich dark pink flowers borne in profusion. A continuous bloomer. Full flowers sweetly scented. 1 year, 26c each; 2 year 70c.

ERNA TESCHENDORFF—Color brilliant scarlet

Paul's Scarlet Climber

red and is considered the best red among the type; constant flowering. 1-year 26c each; 2 year 70c.

ORLEANS—Deep cerise or geranium pink, with center of pure white. The showiest of the bush Roses. 1-year 25c each; 2 year 70c.

WHITE BABY RAMBLER—Flowering trusses produce as many as one hundred blooms and buds and form a striking mass of flowers. Pure white. 1-year, 25c each; 2 year 70c.

SPECIAL OFFER—1 each of above 6 Polyantha or Dwarf Everblooming Bush Roses. 1-year for \$1.32; 6 plants 2-years old for \$3.62.

NOTE—We can supply the above Dwarf Roses in 2-year field grown plants at 80c each.

F. W. Brow Nurseries,

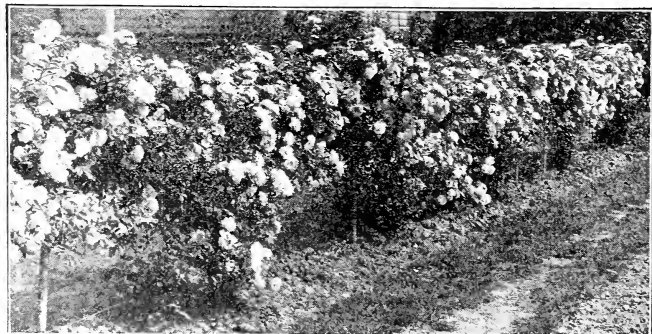

Dear Sirs: Received the plants June 4th, and they look very good. I want to tell you that the Dr. Van Fleet which I ordered from you last year has made a growth of 4 feet and carries buds already. The same applies to the Mammoth Grapes which are doing wonderful.

Signed

Norbert Nemace,

Massachusetts

Fort Jackson, May 19th.

Mr. F. W. Brow:

The plants came in fine shape, in a good healthy condition, we are well pleased with them. The Roses are especially fine.

Geo. A. Downey.

FIELD GROWN ROSES

For those who prefer the budded and grafted roses we offer the following, strong field-grown plants. Strong two-year-old field grown plants, 75c each; except Los Angeles, Mrs. Aaron Ward, Sensation, Duchess of Wellington and Radiance Roses; smaller size plants, 60c each; If desired by mail, add 10c extra for postage.

General Jacqueminot

HUGH DICKSON (H.P.)—Brilliant crimson, shaded scarlet; good size and fine form; free flowering and vigorous in growth; very highly perfumed, Awarded Gold Medal, National Rose Society of England.

J. B. CLARK (H.P.)—A very vigorous grower with strong upright canes. Color, intense deep scarlet, heavily shaded blackish crimson; foliage bronzy green in the young stage. Makes magnificent, large perfect blooms. It is delightfully scented and keeps a long time when cut.

KILLARNEY or The Irish Beauty (H.T.)—Brilliant sparkling pink with large, pointed buds, broad, wax-like petals with silvery edges and enormous semi-full flowers of exceeding beauty.

KAISERIN AUGUSTA VICTORIA (H.T.)—Pure white, does not pink when planted out; splendid, large buds and superb, full double blooms, making the choicest cut flowers. A most sturdy grower, blooming steadily from early until late frost.

KILLARNEY—White (H.T.)—A pure white sport from the pink parent, the newest thing in a forcing Rose.

LADY ALICE STANLEY—Garden rose of great value. Petals shell shaped, forming a perfect flower. Outside of petals deep coral rose; inside delicate flesh often flushed with bright pink.

LADY ASHTOWN—Deep carmine-pink, shading to a yellow at base of petals. Flowers large, full, high centered; continuous bloomer; good rose.

LADY HILLINGDON—(T.) Deep apricot yellow to orange; long, pointed buds; a very free-flowering former and a striking decorative Rose. Awarded Gold Medal of National Rose Society.

LAURENT CARLE—The massive glowing carmine blooms of this fine Rose are probably the largest of all red Hybrid Teas. The buds are solid, very dark and open slowly to big, bold blooms of finest form, with broad, deep petals of great substance.

LOS ANGELES (H.T.)—A Rose of unusual beauty of coloring, being a luminous flame-pink toned with coral and shaded with translucent gold at the base of the petals. The flowers are perfect in form and borne erect on strong, branching stems. Growth is very vigorous and the long, pointed buds are exquisite for cutting, 85c each.

MADAM CAROLINE TESTOUT or The Giant La France (H.T.)—Brilliant satiny-rose, deepening at center and bordered with silvery rose; immense broad petals and extremely large flowers.

MARSHALL P. WILDER (H. P.)—Deep, rich glowing; extra large, semi-globular and full; a very strong grower and free bloomer.

AMERICAN BEAUTY—The most famous of American Roses. Rich color and delicious fragrance. Deep brilliant red, shading to a rich carmine crimson.

CRUSADER (H.T.)—An excellent garden Rose, strong in growth and the flowers are large and beautifully formed. The color is rich, velvety crimson. A comparatively new Rose and one that has proved fine for outdoor growing. The blooms come on strong, vigorous stems and are deliciously fragrant.

COLUMBIA (H.T.)—A splendid, large, fully double Rose of very lasting qualities. It is a strong grower, almost thornless, with brilliant rose pink flowers, sometimes lighter pink. A great prize-winner. It blooms freely and produces perfect blooms all season.

DUCHESS OF WELLINGTON—Illustrated on front cover. The best yellow rose to date. It will take a mighty good one to dethrone this queenly variety. Its lovely buds are very long and pointed. They unfold slowly changing from deep orange yellow to lemon and lighter shades. Half open there is nothing more beautiful than its deep blooms of golden yellow. The flowers are rich tea-scented and freely produced, 80c each.

ELDORADO—Bud and flower very large, full and double; copper, suffused orange and salmon, borne singly on strong stems; fragrant, vigorous, bushy, free blooming.

FRAU KARL DRUSCHKI—The White American Beauty or Snow Queen. (H. P.)—An everywhere hardy, vigorous grower, with bright green delicately veined; splendid long buds and magnificent snow white blooms with large saucer-shaped petals. Rightly named and deservedly a prize winner.

FRANCES SCOTT KEY—An outstanding American variety; extremely large bloom of a rich, crimson-red color; full, very double; borne on long stems of very good lasting quality.

GENERAL JACQUEMINOT (H.P.)—A celebrated and much sought after variety, both for planting out and pot forcing; shapely buds and handsome blooms of bright, shining crimson, rich, brilliant, velvety and fragrant. Everybody knows and wants the "Jack" for its all round good qualities.

GEO. AURENDS—Also known as Pink Druschki. A large and beautiful pink rose, resembling in size and shape of flower the wonderful white Frau Karl Druschki.

GOLDEN OPHELIA (H.T.)—Bright golden yellow, paling slightly at outer petals; medium sized and beautifully formed compact bud, opening to a symmetrically perfect form. A stiff-stemmed year-around former, with closely set, glossy foliage. Seedling from "Ophelia."

GRUSS AN TEPLITZ Greeting to Teplitz, or Virginia R. Cox (H.C.)—Hardy in all sections; grows freely to a height of four to five feet; vivid, dazzling, fiery crimson; sweetly fragrant.

HOOSIER BEAUTY—This beautiful Rose is fragrant as Richmond; has more petals, a stiffer stem, a texture like velvet. In color, glowing crimson scarlet, with darker shadings. The bud is of good length, keeps well in the close-cut state, and opens into magnificent bloom, quite dazzling in its velvety brilliance.

MARY ROSE COLLECTION

5 two-year field-grown bushes

by mail postpaid for \$3.60.

J. B. Clark F. K. Druschki
Paul Neyron Gruss an Teplitz
General Jacqueminot

Gruss an Teplitz

FIELD GROWN ROSES—(Continued)

MME. BUTTERFLY (H.T.)—Color is a harmony of pink, apricot and gold. The flowers resemble Ophelia in form. This Rose is largely grown for cut-flowers and keeps well when cut. Fine for bedding, for if kept well cultivated and in good growing condition it will produce flowers almost continuously all summer and until frost.

MRS. AARON WARD—A most desirable and dependable rose that will probably produce more flowers than any other yellow rose. Semi-double, cup-shaped, deep Indian yellow flowers; fragrant; blooms until frost. 80c each.

GRUSS AN TEPLITZ Greeting to Teplitz, or Virginia R. Coxé (H.C.)—Hardy in all sections; grows freely to a height of four to five feet; vivid, dazzling fiery crimson; sweetly fragrant.

OPHELIA (H.T.)—Salmon-flesh color, shaded with rose. A splendid outdoor variety and one that should be planted freely for cutting as it blooms continuously. The color varies with the seasons and at times shades of soft yellow appear at base of petals. 80c each.

PREMIER (H.T.)—This is one of the most magnificent Roses in the dark pink shades. Color is rich, deep rose and the full perfect blooms of large size, are produced on almost thornless stems. A robust grower, producing splendid blooms all season.

PILGRIM (H.T.)—Large, full flowers of lovely silver-pink, the outside clear rosy pink, produced on vigorous free-blooming plants. Splendid for cutting.

MAGNA CHARTA—Clear, rosy red, beautifully flushed with violet crimson; sweet fragrance.

PAUL NEYRON (H.P.)—The largest of all Rose blooms; bright, shining pink, clear and beautiful; very double and full; finely scented; blooms first season and all summer. Grows to a great height in a single season and stems are almost thornless.

PINK RADIANCE. (Illustrated in color on front cover). The best and most popular pink Rose in America. It stands at the top of the list of 100 favorite varieties chosen by leading American experts because of its exceptional liberality in blooming and its fine and lusty growth. The fragrant flowers are large, globular but not compact, brilliant rose-pink, with lighter tints on the inner surface of the petals. The shapely, big buds are borne on long stems. 85c each.

RED RADIANCE (Illustrated in color on back cover).—Its big, bouncing blooms of cerise-red endear this Rose to all lovers of the Queen of Flowers. It is a very free bloomer, and the buds are particularly fine in the half-open state. The flowers are quite good for cutting, but also endure well in the garden and hold their color. The fragrance is sweet, and fairly strong. Growth is exceptionally fine. 85c each.

SENSATION—This rose is all that the name implies. It has enormous scarlet crimson blooms of fine deep form. The buds are long pointed and the open flowers beautiful with 30 to 35 petals of great size and substance. Stems long pointed and strong with beautiful foliage. 85c each.

ULRICH BRUNNER or Hardy American Beauty (H.P.)—Brilliant cherry-red flowers of immense size.

SELECT CLIMBING ROSES**FOR PORCHES AND ARBOR**

Strong two-year old plants, 65c each; if desired by mail add 10c extra for postage.

AMERICAN PILLAR (C.P.)—Large single flowers of rich rosy-pink, approaching brilliant carmine, just a glint of white at center and golden yellow stamens, a profusion of bloom almost covering the foliage. **THE BLUE ROSE** (Veilchenblau)—“A sensation of the Century.” It bears semi-double flowers of medium size, in large bunches.

CRIMSON RAMBLER—A universal favorite, with magnificent large trusses of brilliant crimson flowers.

CLIMBING AMERICAN BEAUTY—Color rosy crimson, almost identical with its pollen parent, American Beauty, and with the same exquisite fragrance, a quality rarely found in climbing Roses. Of strong habit of growth. Will thrive and bloom in almost any situation where a climbing or pillar Rose is desired.

DOROTHY PERKINS—Grows 10 to 15 ft. in a season. Flowers are perfectly double with petals crinkled, and color a clear shell pink.

DOCTOR W. VAN FLEET (H. W.)—A delicate shade of flesh pink deepening to rosy-flesh in the center, resembling Souvenir du President Carnot. High center, petals beautifully undulated and cupped; buds pointed, flowers full and double, open to an immense diameter. Beautiful bronze-green foliage.

MISTRESS ROBERT PEARY or Climbing Kaiserin. (C.H.T.)—Ivory-white, identical with the parent Kaiserin Augusta Victoria, except in its strong climbing habit.

EXCELSA or Red Dorothy Perkins (H.W.)—Intense crimson-scarlet; double flowers in brilliant clusters set in glossy, shining foliage which never mildews nor spots.

THOUSAND BEAUTIES (Tausendschon)—Colors of every imaginable shade, from pure white to deep pink. Almost thornless. New.

SELECT APPROVED PEONIES

AVALANCHE—Large, globular flower of purest white, showing a minute trace of red on the margin of an occasional center petal. The plant is tall, vigorous and upright, flowering in late midseason. One of the finest white peonies. Each \$1.00.

BEN FRANKLIN—Semi-double flower of deep, rich crimson, borne singly on tall, upright stems. A beautiful dark red peony that is desirable for cutting on account of its long stems. Midseason. Each \$1.00.

CLAIRE DUBOIS—A large, globular flower of perfect form. The regular petals are soft deep pink with a silky sheen that is very beautiful. Fragrant. Late. Each \$1.00.

COURONNE D'OR—A late blooming white variety, bearing a profusion of flowers on strong, upright stems. White, with a ring of bright golden stamens arranged about the center of the bloom that gives a veritable “crown of gold” effect. Each \$1.00.

EDULIS SUPERBA—The Decoration Day Peony. This grand flower is usually open for Memorial Day use, producing a wealth of huge deep pink flowers that are delightfully fragrant. An old variety and one of the best. Each 75c.

EUGENIE VERDIER—Large flower of flat form borne on a plant of tall, vigorous growth. The color is delicate light pink, shading lighter toward the center of the bloom. Midseason. Each \$1.00.

FELIX CROUSSE—One of the finest red peonies. Large flower of globular bomb form that opens a rich, dark crimson color and shades lighter as the flower ages. A free and dependable bloomer. Midseason. Each \$1.00.

FESTIVA MAXIMA—Very large flower of pure white that always carries a touch of red near the center. Strong, vigorous plant that flowers early in the season. Each 75c.

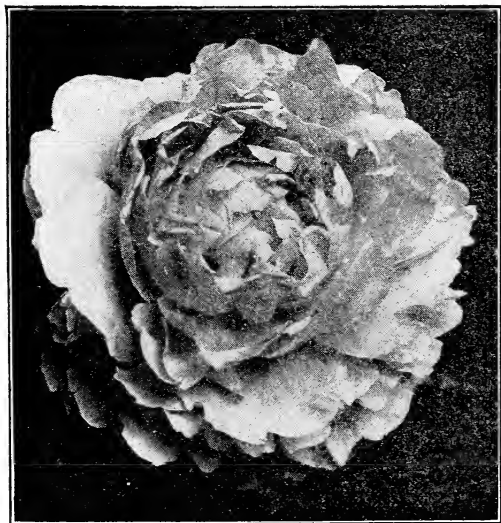

KARL ROSENFELD—The best all-around red peony. The large, globular flowers are bright, crimson red and are borne freely on a plant of excellent habits. Midseason. Each \$1.00.

LIVINGSTONE—A large flower of deep mauve pink that opens late on a plant of strong, upright growth. Fragrant. One of the best late peonies. Each \$1.00.

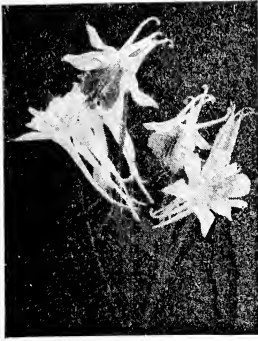

OCTAVIE DEMAY—A delightful peony of dwarf, upright growth that bears very large flowers of softest baby pink at the very beginning of the peony season. Very desirable. Each \$1.00.

Columbine

Hardy Perennials and Old Fashioned Flowers

It is so much easier and quicker to have an old fashioned flower garden when plants can be secured instead of seeds. Our plants are strong and thrifty, making the flower bed an assured success from the time it is set until the blooms begin to appear.

ANEMONE (Japanese Windflower)—Fine white flowers, single with yellow stamens, graceful and decorative. 30c each, 10 for \$2.50.

AQUILEGIA (Columbine)—Old favorite spring and early summer flowering plants that succeed in any ordinary garden soil. 25c; 10 for \$2.00.

BLEEDING HEART (Dicentra)—An old favorite. Flowers heart-shaped in long, drooping racemes, rose color. Very fine for border plants. Price: 75c each; \$6.50 per 10.

CAMPANULA MEDIUM (Canterbury Bells)—An old-time favorite; shades of pink, purple and white, 30c each, 10 for \$2.50.

CHRYSANTHEMUMS—Beautiful hardy sorts, indispensable in the hardy border. Their bright colors give life to the garden when other plants have been destroyed by frost. 30c each, 10 for \$2.50.

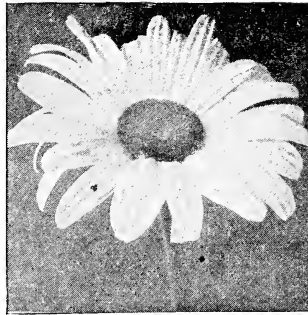

COREOPSIS, LANCEOLATA (Tick Seed)—The flowers are a rich golden yellow of graceful form and invaluable for cutting; blooms throughout summer and autumn. 30c each, 10 for \$2.50.

DAISY, SHASTA—Large snowy white flowers 4 inches across; in bloom all summer; a good cut-flower variety. Every garden has room for this well known perennial. 25c each; 10 for \$2.00.

DELPHINIUMS (Hardy Larkspur)—These are deservedly one of the most popular subjects in the hardy border; long flower sprays in all shades of blue. 25c each, 10 for \$2.00.

DIGITALIS (Foxglove)—Old fashioned dignified and stately during their period of flowering, dominating the whole garden. Bold masses of leaves and flower spikes. White, purple and rose flowers, June and July. 30c each 10 for \$2.50.

GAILLARDIA or BLANKET FLOWER—Among the most attractive and effective of our hardy perennial plants. Will thrive in almost any position or any soil. One mass of bloom from June till autumn. The gorgeous flowers, 2 or 3 inches in diameter, dark red, brown in center with bands of crimson-orange and vermillion, are borne on stems 18 to 24 inches long. Price: 25c each; \$2.00 per 10.

Shasta Daisy

Gaillardia

Hollyhock. For planting in rows or groups on the lawn, or for interspersing among shrubbery, they are invaluable. 25c each; 10 for \$2.00.

HOLLYHOCKS—Few hardy plants combine as many good qualities as the

IRIS

GERMAN or Orchid-Flowered *Fleur de Lis* blooms in May and June. 30c each, 10 for \$2.50.

JAPAN IRIS—Finest of all the Iris family. The flowers are of immense size, from six to eight inches in diameter, and of the most beautiful and delicate shades. They are perfectly hardy and flower in great profusion during June and July, 40c each, 10 for \$3.50.

ORIENTAL POPPY—The flowers are very large, and of a brilliant orange-scarlet with large black blotches at the base of the petals and a great mass of bluish-black stamens in the heart of the cup-shaped flowers, dazzling as a flame. No other blossom is so bizarre in effect, lighting up the garden in such tropical, barbaric splendor. Price: 30c each; \$2.50 per 10.

SWEET WILLIAM (*Dianthus*)—Popular garden flower showing a wonderful array of vivid colors in fancy patterns. Perfectly hardy. Price: 25c each; \$2.00 per 10.

PHLOX

HARDY PERENNIALS—Among hardy perennial plants no class is of more importance than the Phlox succeeding in almost any soil and position and flowering through a long season; and, while they will continue in good condition and flower freely for many years without attention, yet they respond quickly to and are improved by liberal cultivation.

ALTHEA—Tall, bright salmon-pink, violet eye.

BRIDESMAID—White, dark red eye.

COQUILICOT—Bright scarlet.

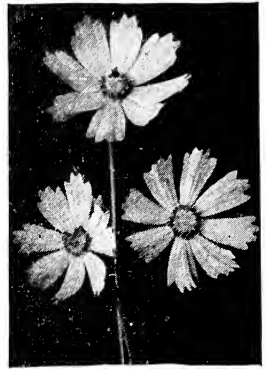

PANTHENON—Large, salmon-pink flowers.

PEARL—Pure white.

RHINELANDER—A new variety of great beauty; rare salmon-pink with a distinct claret-red eye.

RICHARD WALLACE—White, violet center. All varieties 30c each, \$2.50 per 10.

These perennials will live and flower for many years, and require very little attention after planting.

Coreopsis

GYPSOPHILA (*Baby's Breath*)—*G. Paniculata*—A beautiful, old fashioned plant, possessing a grace not found in any other perennial. When in bloom, during August and September, it forms a symmetrical mass 2 or 3 feet in height of minute, pure white flowers, forming a gauze-like appearance. When cut it is exquisite in connection with other flowers. Will thrive in any soil in a sunny position. Should be in every garden. Price: 35c each, \$3.00 per 10.

HOLLYHOCKS—Few hardy plants combine as many good qualities as the

IRIS

GERMAN or Orchid-Flowered *Fleur de Lis* blooms in May and June. 30c each, 10 for \$2.50.

JAPAN IRIS—Finest of all the Iris family. The flowers are of immense size, from six to eight inches in diameter, and of the most beautiful and delicate shades. They are perfectly hardy and flower in great profusion during June and July, 40c each, 10 for \$3.50.

ORIENTAL POPPY—The flowers are very large, and of a brilliant orange-scarlet with large black blotches at the base of the petals and a great mass of bluish-black stamens in the heart of the cup-shaped flowers, dazzling as a flame. No other blossom is so bizarre in effect, lighting up the garden in such tropical, barbaric splendor. Price: 30c each; \$2.50 per 10.

SWEET WILLIAM (*Dianthus*)—Popular garden flower showing a wonderful array of vivid colors in fancy patterns. Perfectly hardy. Price: 25c each; \$2.00 per 10.

PANTHENON—Large, salmon-pink flowers.

PEARL—Pure white.

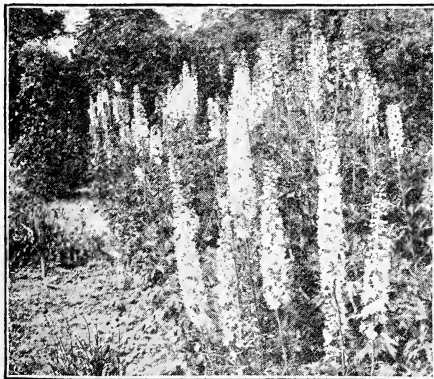

RHINELANDER—A new variety of great beauty; rare salmon-pink with a distinct claret-red eye.

RICHARD WALLACE—White, violet center. All varieties 30c each, \$2.50 per 10.

These perennials will live and flower for many years, and require very little attention after planting.

Sweet William

Delphinium

DECORATIVE HOUSE AND BEDDING PLANTS

FREE FLOWERING FUCHSIAS

WAVE OF LIFE—Dark purple flowers; handsome golden foliage. 30c each; 3 for 85c.

BLACK PRINCE—Flowers carmine rose. Of remarkably easy culture. 28c each; 3 for 80c.

TRAILING QUEEN—Wine color flowers in large, drooping clusters. 30c each; 3 for 85c.

MONSTROSA—Pure white. Extra large flowers, full and double. 30c each; 3 for 85c.

PURPLE PRINCE—Sepals scarlet, corolla a beautiful distinct blue. 25c each; 3 for 72c.

WATERMELON BEGONIA—Leaves distinctly variegated white and green, thick and waxy-like and having the appearance of being powdered with frosted silver. Withstands the dry air of rooms better than the majority of plants, 32c ea.

Giana Fuchsia

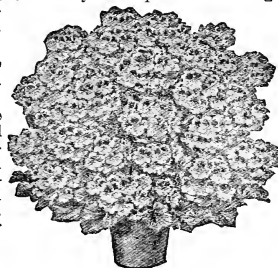

ASPARAGUS SPRENGERII (Feather Fern)

—Especially valuable for window box and hanging basket planting, for vases and as specimens when grown in pots or as tub plants. When used for cut-flower work, the foliage retains its freshness for an unusual length of time. 28c each; larger size 48c.

STRAWBERRY GERANIUM (*Saxifraga Sarmetosa*)—Exceedingly rare and beautiful. Leaves striped freely with silver bands; blooms white and of great beauty. Adapted for hanging baskets, vases, etc. 26c each.

MOONGLOW-ER, G I A N T WHITE

(*Ipo-mea Maxima*) Glistening white blooms produced in wonderful profusion. Rapid grower; unequaled for porch and lattice shading. 26c each, 3 for 74c.

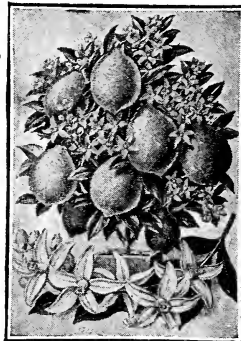

Pansy Geranium

Asparagus Sprengerii

AMERICAN WONDER LEMON

—A true everbearing Lemon. Fruit has been taken from a tree weighing over four pounds. Of easy culture, flowering and fruiting in ordinary soil. Flowers are as fragrant as orange blossoms. 32c each; larger plants 75c each; 3-yr. plants \$1.50.

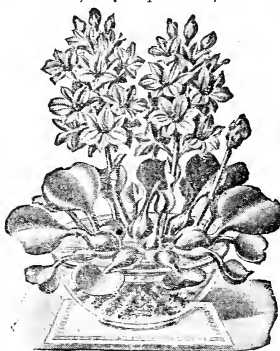

Wonder Lemon

Variegated Vinca

NEW WATER FERN

This interesting and rather peculiar house-plant, requires no soil, but thrives easily in a vase or bowl of water. The beautiful mossy green, fern-like foliage curls up and apparently goes to sleep when taken out of water and remains in its sleeping or dormant state as long as kept out of water but awakens again in a few minutes after being placed in water. This plant is somewhat similar to the well-known Resurrection

Water Hyacinth

PINK WAX PLANT—A well known favorite for rock work, hanging baskets; also for pot culture. Of bushy growth. Produces beautiful pink flowers of wax-like appearance. 30c each; 3 for 85c.

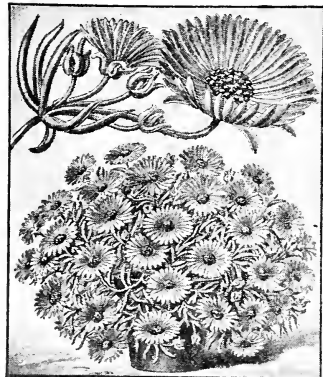

OLEANDERS

ROSEA—An old favorite. Beautiful pink, double flowers. Very fragrant. 32c each; 3 for 90c.

LILIAN HENDERSON—Double white flowers, delightfully fragrant. One of the finest plants offered in recent years. 32c each; 3 for 90c.

DRACAENA INDIVISA—Often called the "Fountain Plant." Slender, drooping leaves of several shades of green with delicate stripings of yellow and red. Very graceful in habit and an exceedingly handsome ornamental plant for the conservatory, window box, vase or urn. 25c each, larger plants, 50c.

NOTE—These plants will be packed separately from other plants and sent by Parcel Post, prepaid.

Pink Wax Plant

Pink Oleander

Decorative House and Bedding Plants—Continued

DOUBLE FLOWERING GERANIUMS

RADIO RED—Dazzling scarlet blossoms. 30c each.

PEACHBLOSSOM—Silver rose pink. Exquisite. 30c each.

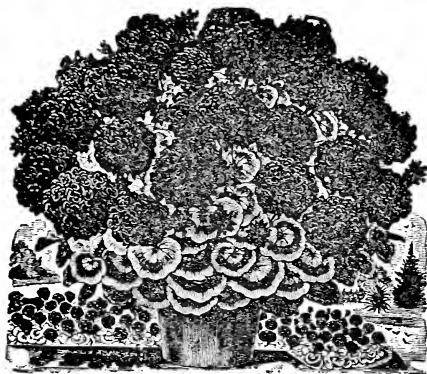

BUCHNER—Flowers purest white. A fine bedder. 26c each.

AROSA—Beautiful shade of shrimp pink. A universal favorite. 26c each.

S. A. NUTT—Brilliant crimson-scarlet. Silver-leaved. 24c each.

ALPHONSE RICARD—Orange-red. Dwarf and branching. 26c ea.

SPECIAL OFFER—The six Geraniums offered above, \$1.46.

Double Geranium, Radio Red

Sweet Scented Violets

DOUBLE VIOLETS—Bold, fine flowers, very fragrant and very free blooming. Excellent for cut-flower planting. 28c each.

CARNATION CRIMSON KING—One of the most satisfactory garden plants. Blooms in June and July, height fifteen to twenty inches. Rich crimson flowers, strongly scented. No better hardy garden perennial to be had. 40c each, 3 for \$1.14.

LATHYRUS (Hardy Climbing Sweet Pea)—Free flowering, extremely attractive. Looks like the regular sweet pea. Will

Carnation Crimson King

flower all summer. Pink, Crimson or White. 42c each, 3 for \$1.20.

ANTHERICUM (St. Bernard's Lily)—Recurrent, graceful foliage which makes a handsome pot plant, also useful for vases. Leaves are dark green, beautifully marked with broad stripes and bands of a creamy-white color. Bears large spikes of

white flowers. 30c each, large plants, 50c.

Royal Purple Plant

ROYAL PURPLE PLANT—(Strobilanthes Dyeranus)—Universally popular on account of its brilliant and exquisite coloring. Surpasses the finest Coleus or Begonia in the exquisite coloring of the leaves. 28c each, 3 for 80c.

AGERATUM—Suitable for mass bedding, for edging or as pot plants for summer and winter bloom. They bear beautiful blue flowers in the greatest profusion and require but ordinary care. 20c each, 3 for 57c.

VARIEGATED GROUND IVY—Foliage marked with pure white and has a fragrance similar to mint. A charming rockery plant. 26c each.

NOTE—These plants will be packed separate from other plants and sent Post-paid.

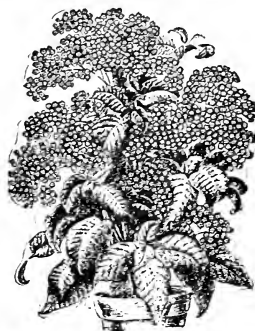

Silver Leaved Dusty Miller

SINGLE PETUNIAS—Richness of color, duration of bloom and easy culture will always make the Single Petunia very popular. Unsurpassed for massing in beds or border planting. Also fine for basket, vase and window boxes. Plants in mixed colors, 20c each, 3 for 57c.

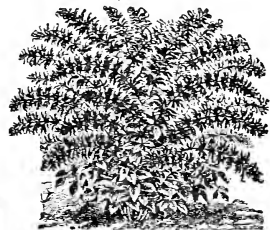

Single Bedding Petunias

Heliotrope

HELIOTROPE MIDNIGHT—An old favorite, famous for its delicious fragrance. Immense blooms of darkest lavender. 28c each.

FAN LEAF PALM (Latania Borbonica)—Leaves large, fan-shaped and of a cheerful green color. Plant of hardy constitution and adapted to all decorative purposes, within or without doors. 50c each, larger plants \$1.00 and \$1.50 each.

Salvia Splendens

SALVIA SPLENDENS—Brilliant and showy. The foliage is dense, forming a mound of vivid green, surmounted by blazing red flowers. Unexcelled for mass planting in beds. 20c each, \$1.92 per dozen.

IVY (Parlor)—A strong growing, climbing vine with bright green foliage. Especially suitable for indoor hanging baskets, boxes, trellis work, etc. 20c each.

ENGLISH IVY—Dark green, distinctly veined evergreen foliage. An incomparable hanging basket, porch box or vining house plant. Also used for covering walls, graves, etc. 28c each.

Blue Ageratum

Decorative House Plants

LARGE FLOWERING PORCH HYDRANGEAS

ROSE BALL—Wonderful bright Rose pink flowering Hydrangeas. Produces strong erect flower heads of large size. 35c each.

LA FRANCE—Color fringed delicate rose. Produces a wealth of bloom. 35c each.

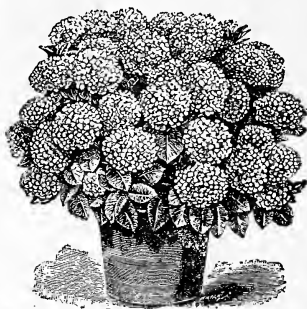

MAD. EMILE MOULLERE—Purest white with rosy-carmine eye. One of the finest sorts. 30c each.

RADIANT—Rosy-carmine, large leaved, showy foliage. 30c each.

RED GLOBE—Darkest red of the Hydrangeas. Fine grower, great bloomer. 38c each.

SPECIAL OFFER—The five Hydrangeas described above, \$1.50.

Hydrangea, Rose Ball

WANDERING JEW—Foliage most beautifully variegated with shades of purple, scarlet, yellow and white appearing in one plant. Is usually used in connection with hanging baskets, porch boxes, etc. Makes a handsome pot plant. 20c each, 3 for 57c.

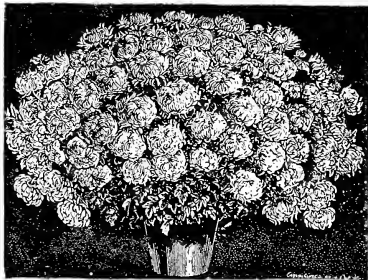

CUT-FLOWER CHRYSANTHEMUMS

HARVARD—Rich crimson. Immense blooms, very showy. 28c each; 3 for 80c.

COL. D. APPLETON—Clear yellow. Splendid. 26c each, 3 for 74c.

PACIFIC SUPREME—Bright pink. Of good shape and fine size 30c each; 3 for 85c.

GOLDEN GLOW—A bright yellow of velvety finish. Large flowers. 24c each;

Chrysanthemum, Louis Boehmer

FANCY EXHIBITION CHRYSANTHEMUMS

M. FROMONT—Red Ostrich Plume. Strikingly beautiful. 38c each; 3 for \$1.08.

LOUIS BOEHMER—Pink Ostrich Plume. Good size, splendidly incurved. 32c each; 3 for 90c.

OCONTO—Pure white. Perfect foliage. An incurved flower of massive size. 24c each, 3 for 68c.

CHRYSOLOREA—A new yellow variety. Large, beautiful blooms. 30c each; 3 for 85c.

SPECIAL OFFER—The four Chrysanthemums described above, \$1.24.

Chinese Lantern Plant

L'INFANT DES MONDRES—Pure white. A strong grower of good habit. Highly desirable. 30c each; 3 for 85c.

CHRISTMAS CHEER—A fine late pink. Flowers are always large. 30c each; 3 for 85c.

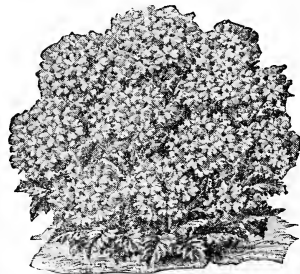

SPECIAL OFFER—The six Chrysanthemums described above, \$1.50.

CHINESE LANTERN PLANT (Physalis)—White blossoms followed by orange scarlet lantern-like fruit, which when cut make a novel indoor winter decoration. 32c each.

BRAZILIAN PLUME PLANT—Throws out long shoots each of which is tipped with beautiful pink, plume-like flowers. A strong, rapid grower. 30c each, 3 for 85c.

Brazilian Plume Plant

Mammoth Verbenas

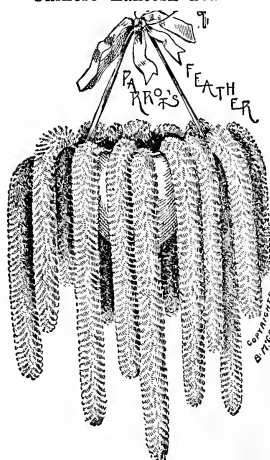

MAMMOTH VERBENAS

Flowers are borne in large trusses three inches or more in diameter. Splendid for bedding plants; also make attractive pot plants. Colors, scarlet, pink, white, blue and variegated. 22c each; 3 for 63c.

USE PLANT-TABBS for your House Plants. See Page 10.

Everblooming Lantanas

Parrot's Feather
A distinct Novelty

PARROT'S FEATHER—Wonderful drooping water plant. Delicate light green feathery foliage. Nothing more interesting or attractive for planting in water-tight vessels such as bowls and aquariums. 35c each.

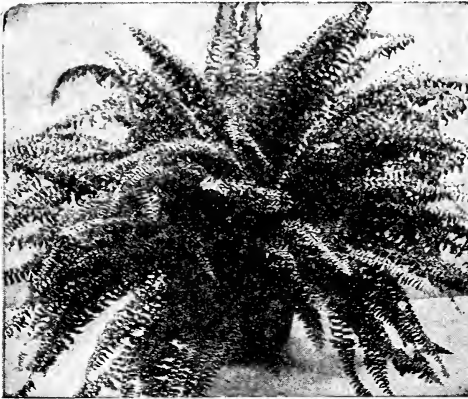

BEDDING LANTANAS

Unexcelled as a bedding plant, as they are almost constant bloomers; also very popular for pot culture and frequently used in hanging baskets, porch boxes or vases. White, yellow, crimson, dark red, pink and variegated rose and yellow. 30c each, \$2.88 per dozen.

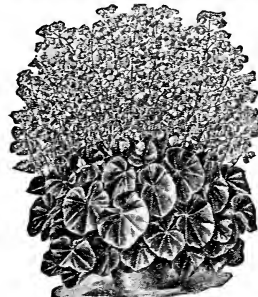

NOTE—These plants will be packed separate from other plants and sent post paid.

Decorative House Plants—Continued

IDEAL DECORATIVE FERNS

Original Boston Fern

Beefsteak Begonia

BEEFSTEAK BEGONIA—

(Feastii)—A low, spreading Begonia, with circular leaves, red beneath and dark glossy green above and of heavy texture. The finest pot Begonia we have for house culture. 35c and 60c each.

WHITE CALLA—Unusually large, pure white flowers held high on long, stiff stems. Free blooming. Of easy culture and makes a very attractive house plant. 28c and 60c ea.

WEeping LANTANA—In continuous bloom winter and summer. Flowers violet pink. Graceful; drooping habit; foliage a beautiful dark green. 26c each.

White Calla Lily

SNAKE PLANT

The ideal house plant, its thick, leathery, sword-like leaves standing the heat, dust and gas with impunity. Leaves are dark green in color, striped with white. 36c ea., larger plants 75c.

HARDY BEGONIA

Clusters of Beautiful Pink Flowers. A rapid, healthy grower and profuse bloomer; handsome foliage. Bedded out the roots start new growth in the spring, like Peony and Phlox. 44c each.

NOTE—These plants will be packed separate from other plants and sent postpaid.

Snake Plant (Sansevieria)

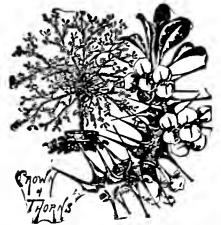

BOSTON—One of the best known varieties grown. Of easy culture and a very rapid grower. Fronds frequently measure 6 to 8 feet in length. 26c each; larger plants 50c., 75c and \$1.00.

OSTRICH PLUME—One of the few feathery foliaged Ferns, which everyone can succeed in growing. Constantly unfolds fresh fronds, which often attain a width of 12 inches. 38c each, larger plants, 75c and \$1.00.

ROOSEVELT FERN—Dense, massive fronds, broad and of a rich, dark green. Erect in growth; exceedingly graceful. 34c each, larger plants 75c and \$1.00.

MAIDEN HAIR FERN—An exceedingly beautiful and healthy dark green, feathery house plant. The fronds of this lovely variety are often used in cut-flower work. 30c each; larger plants, 50c.

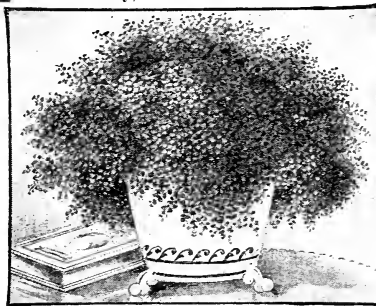

BABY'S BREATH FERN—The fronds are very fine and filmy, on which account it has been called by some

"Lace Fern." Nothing is daintier than well-grown specimens in any size. 36c ea., larger plants \$1.00.

CROWN OF THORNS

(Euphorbia Splendens)—A curious plant, with thick, fleshy, twining stem, which are covered with sharp, stout spines. Foliage, bright green, flowers a beautiful coral-pink. 38c each.

Baby Tears (Helxine)

BABY TEARS — (Helxine)—Moss-like foliage. Compact and dense growing. A most attractive plant for shaded window boxes. Grows easily under living room conditions. 42c each.

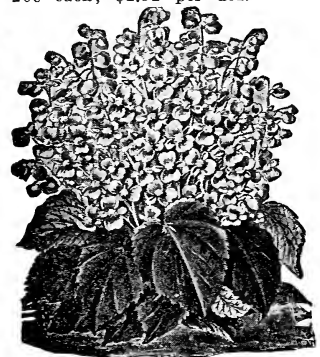

COLEUS, CHRISTMAS GEM

—Immense leaves of dark carmine shading off to a deep maroon, the margin being yellow and green. An exceptionally striking decorative pot plant. 30c each.

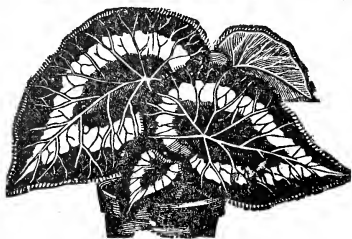

Christmas Gem Coleus

COLEUS, BEDDING—Handsome foliage, velvety in texture, toothed and frilled in wonderful combinations of color. Very effectively used for ribbon and carpet bedding; also specimen plants attractive for the window garden or conservatory. 20c each; \$1.92 per doz.

Hardy Begonia (Evansiana)

Decorative House Plants—Continued

Giant Rex Begonia

ASPARAGUS PLUMOSUS (Lace Fern)—Fronds are bright green, gracefully arched and as woven as the finest silken mesh. Their lasting quality when cut is remarkable, retaining their freshness for weeks. 30c each.

SILK OAK TREE—A magnificent plant for decorative purposes, of rapid easy growth, fully cut foliage, rivaling a rare Fern. Often called "Silk Oak" on account of its beautiful foliage. 26c ea., 3 for 74c.

LEMON VERBENA—Foliage lemon scented. White flowers. Grows rapidly. 26c each. 3 for 74c.

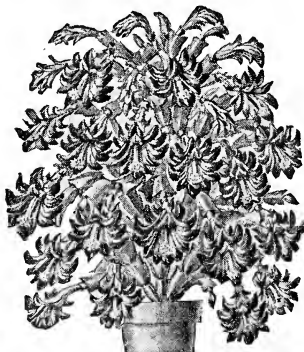

Asparagus Plumosus

Fruiting Orange

AGAPANTHUS (Blue Lily-of-the-Nile)—A splendid ornamental plant of bright evergreen foliage spreading three to four feet and surmounted with spikes of bright blue flowers which remain in bloom for a long period. 30c each, larger plants 45c and 60c.

Christmas Cactus

HIBISCUS PEACHBLOW—Flowers are double; of charming rich, clear pink; an entirely new and most beautiful shade. Will give satisfaction to all. A fine pot plant for house or porch. 30c each; larger plants 60c.

REX BEGONIA—In no other class of plants do we find the rich metallic foliage, and colors blending from bright green, silver and orange to a bright plum color as are found here. Mammoth leaves. 45c each.

TRITOMA (Red Hot Poker Plant)—Gigantic flower spikes of rich orange-scarlet shading to salmon rose on edge. Easily grown. Fine in late summer and fall.

Price 35c, larger plants 60c.

Hibiscus Peachblow

CLIMBING FIRECRACKER PLANT (Mannettia Bicolor)—Flowers are intense scarlet, shading into flame, tipped with bright golden-yellow and are covered with a thick scarlet mesh. Can be grown in the house or garden equally well. 28c each.

Coleus Trailing Queen

FRUITING ORANGE—Dwarf, free flowering variety, suitable for pot culture. Easy to grow. Produces pure white, waxy blossoms, which emit a delicate yet powerful fragrance. 30c ea., larger plants, 50c, 75c, and \$1.00.

RESURRECTION PLANT (Rose of Jerico). Plant apparently dried and dead but placed in water becomes an expanded rosette of fine fern-like leaves. Very odd and beautiful. 20c each.

Agapanthus (Blue Lily)

CHRISTMAS CACTUS—Drooping, jointed stems with beautiful rosy-red flowers. Blooms through winter and early spring, its long drooping flowers being borne in great profusion. 45c each.

FEVERFEW—Flowers large, of perfect form, pure white. Constant blooming. Very dwarf. 24c each, 3 for 68c.

NOTE—House plants are packed separate from other plants and sent post-paid.

Cl. Firecracker Plant

TRAILING QUEEN COLEUS—Center of leaves fiery crimson surrounded with deep maroon; deeply serrated edges of bright olive-green. No better plant grows. 22c each, larger plants 40c.

PORCH BOX COLLECTION—Ten plants, all different. Our selection from following list: Geraniums, Begonias, Petunias, Boston Fern, Asparagus Sprengerii, Hibiscus, Wandering Jew, Ostrich Fern, Salvias, Dracena, etc., \$2.00.
